LEMURS, TRAILS, TSINGY & TREEHOUSES

As a family, unearth Madagascar’s magnificently wild and rugged Northern region. This trip will allow us to get into the true soul of this unique and diverse country. We will be experiencing the rich Malagasy culture, sleep in huts on the beach, spending nights in eco hotels and even sleeping in a jungle tree bungalow! A region often overshadowed by its famous beach resorts, this adventure will allow you to go truly off the beaten track; being guided through the remote towns, villages and national parks, witnessing striking landscapes as well as spotting the enchantingly unique Madagascan wildlife. Become a part of the adventurous minority as you journey towards Madagascar’s far north, experiencing incredible nature and the most remarkable scenery including tsingy, baobabs and waterfalls. You’ll have the chance to spot sifakas, crowned lemurs, leaf-tailed geckos and so much more on this fun-filled family adventure!

MADAGASCAR *an overview*

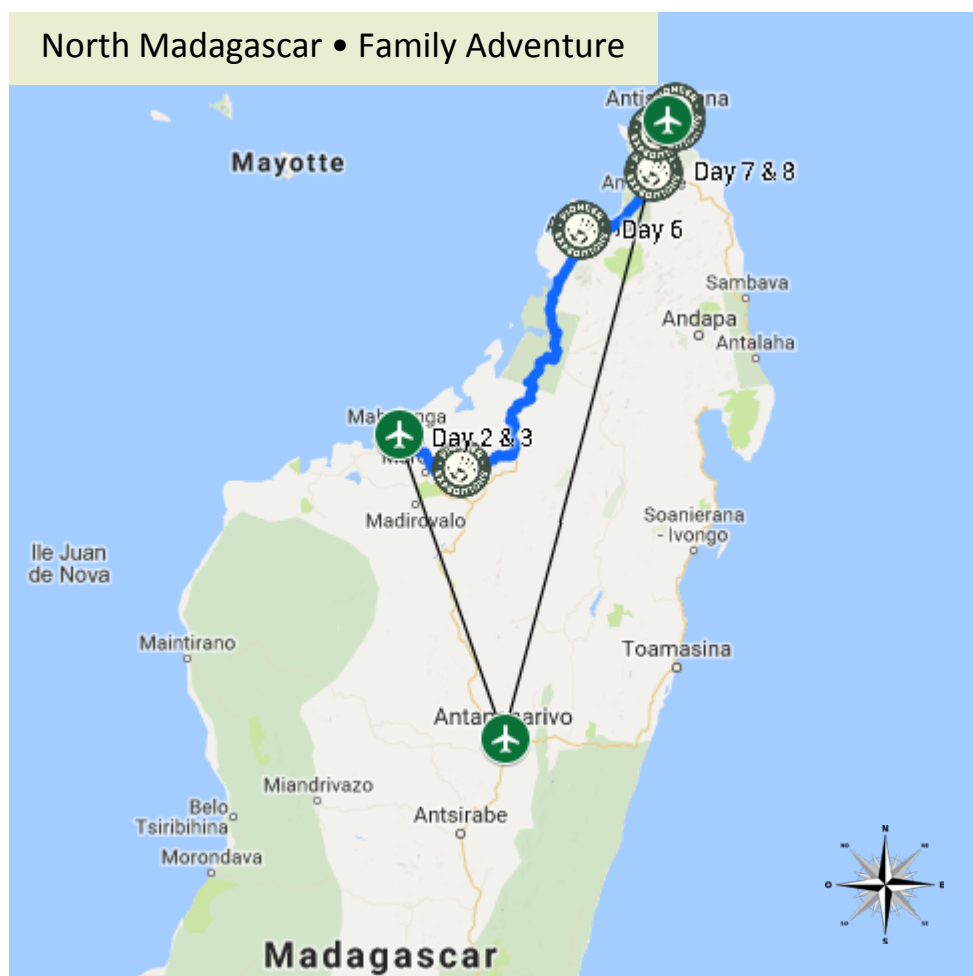

Madagascar is a one-off; there is no other place like it. Its landscapes, animals and plants are simply fantastic! Near the equator with an astonishing array of habitats, ranging from rainforests to deserts and from mountain tops to mangrove swamps, it is one of the most important countries for biodiversity on the planet. The tropical climate is a perfect host to the process of nature and, like nowhere else, the variety and richness of life has flourished. We will see much of the unique flora and fauna of Northern Madagascar on this exceptional off-the-beaten-track, nature guided expedition.

WHY PIONEER EXPEDITIONS?

DAY 1: Tongasoa eto Antananarivo!

After arriving in Antananarivo (or Tana, as it is known by the locals), you will be met at the airport and transferred to your hotel.

Antananarivo is the capital and largest city in Madagascar. It is buzzing with activity and full of people flooding the streets, selling everything you could imagine! Tana (as the locals call it) resembles a Mediterranean hill town and exploring its rich cultural and architectural sites on foot is relatively easy (as long as you are willing to climb hundreds of ancient stone steps) It is a hectic city though and we would recommend a driver / guide if you want to explore!

DAY 2: Flying north to the seaside city of Majunga

Transfer to the airport in time for your flight to Majunga. Your guide and driver who will be with you (until Sakalava) will meet you at the airport in Majunga.

Mahajanga's baobabs, scattered islands, forest reserves, lakes and caves have turned it into a major escape away for the capital's inhabitants, however is still pretty much off the international tourist route. With wide avenues, shady arcades and walls draped with gorgeous bougainvillea, it really is a beautiful place, boasting beautiful beaches and a coconut-lined boardwalk. The amazing natural and cultural heritages of Mahajanga make this city and its environments an extraordinary worthy destination. In this paradise, there are eight months of hot, virtually rain-free weather.

Afternoon is at leisure to explore Majunga or chill out (after your long journey yesterday) by the pool.

DAY 3: Discovering Majunga – Sacred Lakes, Sakalava Villages & Cirque Rouge

Today we will visit the sacred lake at Mangatsa, which is a site of great religious importance to the Sakalava tribe. Enroute we will pass by some typical Sakalava villages. Later this afternoon we can visit the Cirque Rouge.

The cirque rouge is a stunning site in the wonderful Mahajanga. The cirque rouge (red rock) is a multi-colored circular rock formation that looks very much similar to red American canyons! The rock is situated near the Amborovy beach so it is perfect to visit after a long day relaxing at the beach to get a feel of a real tropical sunset! The sun rays at twilight hit the cirque and bring out the amazing natural colors of the sand!

DAY 4: Journeying towards Ankarafantsika

Morning at leisure before heading to Ankarafantsika.

Ankarafantsika National Park, set on Lac Ravelobe, is a mixture of deciduous forests and wetlands. It is known for its lakes and for being a haven for lemurs and endemic birds. It is covered in varied fauna, mainly herbaceous and endemic woody plants. It is the home to the beautiful Coquerel's sifaka as well as 7 other species of lemurs (inc. western woolly, fat tailed dwarf lemur, mongoose lemurs) and exceptional birds (including rufous vanga and fish eagle). There is an organized network of paths that is perfect for wildlife viewing.

Here you are able to take night walks to see some of the nocturnal species which are particularly prevalent in this park (including mouse lemur – the smallest primate in the world).

Tonight we will take a night walk to see some of the nocturnal species. We will overnight at the bungalows in the national park - these are set discreetly in the forest and face Lake Ravelobe. They are clean, comfortable and simple, and are ideal for us to get an early start in the forest tomorrow (being a 2 min walk from the park entrance).

Overnight:
Bungalow

Meals:
B, L, D

Approx. Distance:
125km (2 - 2 ½ hrs Drive)

Activity:
Wildlife

DAY 5: Encountering the unique inhabitants of the Ankarafantsika National Park

We set off after breakfast to explore this forest on foot, a superb flora and fauna rich day hike. We will take a picnic lunch to have on the trail in the national park.

After lunch we will have the option of setting out on a flat bottomed boat trip on the lake, which is perfect for birdwatching.

Overnight:
Bungalow

DAY 6: Transfer to Ankify

Ankify is a peninsula located in the district of Ambanja, and is the main port for boats and ferries between the Malagasy coast and Nosy Be. Ankify faces Nosy Be and Nosy Komba islands. Its main activity is around the port and Ankify is home to many fishermen and their families.

Today we will set off early for a days drive to Ankify (8hrs driving time excluding stops). This is a long day, however at the end of the day we will be rewarded with the azure blue sea and golden sand at Ankify. Along the way we will pass through villages and animated markets so there is always something to look at en-route. We will add lots of short stop offs to keep young travellers (and their parents) happy.

Tonight we overnight in Bungalows on the beach

Overnight:

DAY 7: Beach time in stunning Ankify before hitting the road towards Ankarana

We can spend the morning relaxing on the beautiful beach (the beaches are flat so swimming can be restricted at low tide) before setting off to Ankarana.

Ankarana Special Reserve covers 18,220ha and is known for its limestone karst pinnacles called Tsingy along with its extensive cave system and network of underground rivers. Ankarana possibly has the highest density of primates of any forest (with 11 species of lemurs being found here) and here you may see the crowned lemur, Sanford's brown lemur, Perrieri's (black sifaka) lemur, the northern sportive lemur and dwarf lemurs as well as a variety of chameleons and leaf-tailed Uroplatus gecko and great flora.

Overnight:
Lodge

Meals:
B, L, D

Approx. Distance:
150km (5 hours)

Activity:
Beach and Drive

DAY 8: Exploring and unearthing the striking landscapes of Ankarana Reserve

Today will be spent exploring this amazing park along with the Tsingy and the canyons. The trails are not easy but are feasible for anyone with a moderate level of fitness and we recommend visiting this park in the dry season (May-Nov).

Overnight:
Lodge

Meals:
B, L, D

Approx. Distance:
N/A

Activity:
Exploring and Wildlife

DAY 9: Visiting charming Joffreville and the renowned tropical forest of Amber Mountain

Today we head to Joffreville along some slightly bumpy roads and the Montagne d'Ambre – the Amber Mountain.

This stunning National Park is comprised of a huge tropical forest with waterfalls and volcanic lakes. This islet of verdant forest is a haven of freshness that escaped the stuffy heatwave of this region. There are numerous animals that inhabit this national park including the ring-tailed mongoose, the fossa and 8 lemurs (which are not always easy to see). It is also home to 75 bird species – 35 of them are endemic, 60 reptiles (from leaf tailed gecko's to a number of chameleon species, 35 frogs and 40 butterflies. Due to its relative proximity to Diego, this park can get quite busy (by Madagascan standards) in the high season, however it is really worth visiting.

Our accommodation whilst here will be a charming boutique hotel.

Overnight:
Hotel

Meals:
B, L, D

Approx. Distance:
75km (5 hours drive)

Activity:
Exploring and Wildlife

DAY 10: Discovering the beauty concealed within the **Amber Mountain**

Today we will spend the day exploring the forest trails and waterfalls in the Montagne d'Ambre.

Overnight:
Hotel

Meals:
B, L, D

Approx. Distance:
N/A

Activity:
Exploring and Wildlife

DAY 11: Off to **Montagne des Francais** to experience stunning views and intriguing landscapes

Today we head to Montagne des Francais, just a short 2 hours by road, but a very different environment - a tropical dry forest with Baobab trees, caves, fish eagles and lemurs.

*The Montagne des Francais reserve protects deciduous dry forest characteristic of the north of Madagascar. Much of the forest is on a calcareous massif that has been eroded into Tsingy. This is one of the best places to see one of the most beautiful baobabs, *Adansonia suarezensis*. Montagne de Francais is part of the larger Ramena protected area complex and is home to fish eagles and crowned lemurs.*

DAY 12: Heading to the gorgeous beaches of **Sakalava** – a perfect paradise ending to your trip

This morning we head to Sakalava (1 hour by car). You can choose to extend your stay with some extra days on the beach if you prefer or take the beach extension below.

With beautiful white sand and a shallow lagoon with pristine waters Sakalava is the perfect place to relax. Its 3 mile stretch of beach enclosed by barrier reef make this area a perfect place for wind or kite surfing (it's a safe place to learn as the wind blows you back into shore).

Overnight:
Sakalava Bungalow

Meals:
B, L, D

Approx. Distance:
16km (1hr Drive)

Activity:
Beach

DAY 13: Back to **Antananarivo** or optional extension (e.g. Nosy Be or Island Hopping)

We will depart Sakalava and head to Diego, where we will catch the Air Madagascar flight from Diego to Tana. Depending on your time of arrival in Tana you can visit the handicraft market, before transferring to your hotel.

Overnight:
Hotel

Meals:
B

Approx. Distance:
Short Flight

Activity:

NB: This itinerary is subject to change – arrangements, routes and facilities are subject to variation depending on local conditions. When driving times are given, this is only an indication. It aims to reflect the actual driving time (and doesn't include stops, lunch, traffic). The road journeys, while often long, are one of the great ways to experience Madagascar. There is so much life on the road and many photographic opportunities along the way from a natural and people perspective.

On this particular trip there is a minimum age of 8 and some previous outdoors experience is useful. We can also tailor itineraries to suit your exact requirements including catering for younger children

If this trip isn't quite what you are looking for, we can **tailor itineraries** to suit your exact requirements.

GETTING AROUND

- Transport will consist of 4x4, to give you the most authentic, off-the-beaten track experience. These vehicles are best at tackling the challenging roads that Madagascar primarily consists of.
- Madagascar is notorious for the unreliability of its domestic flights in terms of time. The flights schedules are always subject to change at anytime and can experience cancellations, which are not ideal when following a schedule! ; For this reason we tend to travel by road for the most part.
- Distances and times will of course be lengthy due to the vastness of the island and lack of good-quality road systems throughout the country. However, this all adds to the adventurousness of any Madagascar trip; but is definitely something to be aware of whilst travelling around Madagascar.

WHAT OUR CLIENTS HAVE SAID...

“Fantastic holiday, many thanks for organising everything. The team were excellent, first class - great guiding from Max, he was perfect for our family”

– -R. Sawtell

“The itinerary, guides and drivers were all spot on. We enjoyed all the parks on the way down to Tulear and managed to see most types of Lemur and Sifakas. The highlights of the trip? Too many to mention really.”

Family Adventure North

EXTENSION EXAMPLES

Feel free to **contact us** for more information on all of our Madagascar Extensions. Alternatively, browse through our extension document, available from our website.

Here are some of our most popular Family Adventure North extensions:

1. A paradise ending to your trip with our **Beach Extensions**

Nosy Be

Diego - Sakalava

Nosy Sakatia

Incorporating an idyllic beach extension to this trip is the best way to unwind at some of Madagascar's and the Indian Ocean's greatest paradise destinations. The itinerary for our main trip conveniently concludes near the locations of our recommend extensions; so why not explore further and experience something different for the perfect paradise ending to your nature adventure. Head off to the highly popular and much-loved island of **Nosy Be**, to experience a combination of gorgeous beaches, sublime scenery and wildlife as well as rich Malagasy culture. Alternatively, for even more paradise seclusion and tranquillity and famed for its orchids, **Nosy Sakatia** (an equally stunning Island, neighbouring Nosy Be) can offer you a peaceful setting with great snorkelling/diving opportunities as well as equally fabulous beaches. Both Island extensions are perfect for a spot of relaxation and even more discovery, before heading home. Overshadowed by its more famous and luxurious counter-parts, our **Sakalava** beach extension offers white sandy beaches, fantastic windsurfing and kitesurfing opportunities as well as a remote, peaceful location.

2. An adventurous trip ending in paradise with our spectacular **Island Hopping Trip** around **Nosy Be**

Why not add a sublime Island Hoping adventure onto your Madagascar trip and further your time in Madagascar with something a little different. This unique extension combines sunsets, cocktails, white-sandy beaches, swimming, snorkelling, Madagascan vanilla scented air, heavenly turquoise waters, meals under the stars with journeying on dhows (Madagascan sailing boats), nature walks, wildlife and beach camping.

With the air scented with Madagascan vanilla and tranquil, sparkling clear turquoise water, Nosy be is a charming destination for anyone. There are plenty of hotels and excellent restaurants serving seafood feasts on the sand. The sunset over the beach is unbeatable – a real escape from the hustle and bustle of Madagascan city life. Nosy Be means 'big island' in traditional Malagasy language and is a fantastic place to dive and snorkel.

(Email us at info@pioneerexpeditions.com for costings and more information on these extensions, as well as even more extension ideas)

WHEN TO GO...

The majority of our Madagascar trips take place March to December, this is when Madagascar is at its best. The weather and climate can change a lot throughout the year and when you go to experience this remarkable country, depends on your preferences.

Madagascar Spring: **March - May** (Dry and Warm)

- ☺ After the rains have passed. Everything is lush and green and fertile
- ☺ March is great in the South West, but some roads in the North and West can still be recovering from the monsoon season.
- ☺ April and May is the perfect time to visit. Great wildlife, great weather and not too many tourists.

Madagascar Winter: **June - August** (Dry)

- ☺ This ideal season for trekking / activities as is the coolest time in Madagascar. Temperature vary in the different areas but typically around 20 degree C
- ☺ Evenings (especially in the highlands) can get very cool at night (10 degrees C)
- ☺ Good time for seeing lemurs, but due to the cooler weather smaller mammals and reptile will be less active
- ☺ July and August can be busier in the national parks due to school holidays.
- ☺ August and September are ideal for keen birdwatchers to visit Madagascar.

Madagascar Spring: **Sept - November** (Dry and Hot)

- ☺ September to November is highly popular, as even North Eastern Madagascar is dry now.
- ☺ August and September are ideal for keen birdwatchers to visit Madagascar.
- ☺ It is hotter with very little rain, great for spotting chameleons and lizards, but quite hot for trekking / activities – in November temperatures start to rise rapidly.
- ☺ October is particularly perfect for witnessing baby lemurs.
- ☺ Main downside with this time of year is that it is the peak season so national parks are busier with more tourists

Madagascar Summer: **December – March** (Hot and Rainy Season)

- ☺ The rains start to come. The North East is still relatively dry in December and we offer many Christmas trips.
- ☺ January/February should definitely be avoided as it becomes monsoon season - due to the heavy rainfall causing the already difficult roads to become muddy and impassable. The RN7 is still drivable so the 'classic' Madagascar route is still possible for those who can only travel in this season
- ☺ This is the best time of year for orchid lovers

*"My favourite time of year is **May** because the rains have finished so everything is lush and green. You don't see many other tourists as they tend to go in September and October, but everything is just beautiful – it's pretty perfect."*

- **Laurenne Mansbridge**
Pioneer Director
