# ECUADOR, *an overview*

Located on the west coast of South America lays Ecuador, a truly remarkable destination. Surrounded by the Pacific Ocean to the West, Colombia to the North and Peru to the East and South its landscapes, animals and plants are simply incredible. Near the equator with an astonishing array of habitats, it encompasses the Amazon, Andean highlands and the wildlife rich Galapagos Islands. The tropical climate is a perfect host to the process of nature and is further accompanied by its vast range of geographical regions; La Costa (the coast), La Sierra (the highlands), La Amazonia (the east) and La Region Insular (the Galapagos Islands). It is recommended that expedition members need some previous rafting experience and a moderate fitness level is required as daily activities range between 5-7 hours and can include white-water rafting and trekking.

## DAY 1 : TRANSFER FROM QUITO TO MACAS

We start our adventure in Ecuador with a scenic jungle drive from Quito to Macas (approx. 6 hours). Spend the afternoon strolling through the town whilst we explore on our own. In the evening, we will enjoy a welcome dinner and a short trip briefing to prepare us for our epic rafting journey that begins tomorrow.

*It is now the best known archeological site on the planet. Ecuador's capital, Quito, located in the Sierra region at 2850m above sea level, making it the highest capital city, was originally constructed on the foundations of an ancient Incan town. Today, it is known as its well preserved colonial city which harmonises with the 16<sup>th</sup> and 17<sup>th</sup> century European influenced churches and structures. Around every corner is something new to discover and is full of culture, history and traditional foods.*

## DAY 2: RAFT THE UPPER UPANO & SHUAR COMMUNITY VISIT

After an early start and a hearty breakfast, we drive to our put-in on the Upano River and begin our whitewater adventure. The upper part of the Upano is wide and relatively tranquil, with mostly Class III rapids and the occasional Class IV section where we navigate steep boulder passages. This reasonably laid-back start to our expedition helps us get used to paddling as a team and gives us the chance to appreciate the stunning rainforest scenery and wildlife around us.

The thatched-roof huts of the Shuar are visible along the riverbanks and local Shuar families can often be seen washing clothes or fishing from the shores of the upper Upano. After setting up camp on the riverbank near the town of Sucua, we head out to visit the nearby Shuar community where we will learn about their culture and ancient rituals including the practice of shrinking the heads of their fallen enemies. After our visit with the Shuar we will head back to our campsite where we will enjoy a tasty dinner and a peaceful night's sleep on a sandy beach by the river.

## DAY 3: FIRST DAY OF RAFTING THE GORGE OF SACRED WATERFALLS

Breaking camp early we continue down the Upano River and pass under the Patuca Bridge where we will enter the beautiful Namangosa Canyon where the Upano quickly changes her mood. As the canyon deepens and narrows, the riverbanks rise into towering walls and the water is channeled into a boulder-choked gorge. Water volume and speed increases and the Upano becomes a power river that propels us through almost constant IV and IV+ rapids.

The Shuar call the Namangosa "The Gorge of Sacred Waterfalls" for

good reason: tall white waterfalls are the only thing that interrupts the lush green of the canyon walls. The Namangosa is covered with pristine primary forest which creates the perfect opportunity for us to see numerous species of jungle plants, tropical birds and colourful butterflies as we paddle down the river. The breathtaking setting and sustained rapids make this long run truly unforgettable. We stop around halfway through the canyon to camp at a pleasant site called Mina.

 **Activity:** *Rafting & Wildlife*

#### DAY 4: FINA DAY OF RAFTING THE GORGE OF SACRED WATERFALLS

The pace during our last day is a little more laid back as we stop a few times to explore hiking trails and hidden caves along the banks. We will also swim in many of the tributaries that flow into the Upano, each with a different temperature, water volume and speed. In the afternoon we reach our take-out site where our vehicle is waiting for us to drive us back to Macas. We enjoy our last evening in the jungle at our riverside hotel.

 **Activity:** *Rafting, Trekking & Exploring*

#### DAY 5: TRANSFER FROM MACAS TO QUITO

After breakfast, we have the rest of the morning free to explore Macas and its surroundings on our own before heading back to Quito (approx. 6 hours).

*Macas, a small town located in the southern Amazon is home to the Shuar indigenous community, famous for their fierce resistance to colonisers and their ritual of head shrinking. The area, known as 'The Emerald of the East', due to its scenery of the Andes Mountains and Upano River is an important agricultural and livestock centre, as well as a transportation hub for smaller surrounding jungle communities. Agricultural products found here include yucca, sugarcane, papaya, coffee and bananas.*

 **Activity:** *Personal Preference*

**NB:** This itinerary is subject to change – arrangements, routes and facilities are subject to variation depending on local conditions and discretion of the guide. Please note times given are approximate driving times and do not include stops, the journey times are therefore longer. When driving times are given, this is only an indication. It aims to reflect the actual driving time (and doesn't include stops, lunch, and traffic). The road journeys, while often long, are one of the great ways to experience Ecuador. There is so much life on the road and many photographic opportunities along the way from a natural and people perspective. Campsites may vary based on weather conditions. We recycle and transport out all our non-organic garbage. Although we attempt to stick to the itinerary, changes do sometimes occur. Alternative river runs are available and may be substituted for those on the itinerary. Being flexible will allow you to get the most from your experience.
