# ETHIOPIA, *an overview*

Ethiopia remains an enigma to many. It is an ancient land with history going back 3000 years. Its society is rich with colourful culture, of secret societies and centuries old Churches. Ethiopia retains the Julian calendar of 13 months in a year and is said to be home of the Holy Grail of the Old Testament. The northern and central regions of the country boast some of the most magnificent mountain ranges in all of Africa. In this region alone there are over 20, 4000m peaks. These ancient ranges are dramatic, with enormous gorges being gouged out by torrents of water over the millennia. They are the home of the beautiful lion like Gelada Baboon and the highest peak of Ethiopia, Ras Dejen (4563m).

At 4200m you pass through Bhaut pass. Here, you will also get your first sighting of the Ras Dashen (4620m), the highest point in a wall of cliffs and peaks on the skyline. ## DAY 7: AMBIQUO - SUMMIT DAY

Today's climb to the highest point in Ethiopia, the summit of Ras Dejen, requires a dawn start. You climb slowly and steadily through giant Lobelia forests, passing the tiny, perched village of Mizma and gaining an area of open pasture where there are herds of cattle and goats with their attendant herdsmen. The triple-summitted bulk of Ras Dejen looms above and it is far from obvious which of these is the highest. Finally, after 5 hours of ascent, you reach steeper, rocky ground and a short scramble to the cairned summit. We usually take an hours rest on top to enjoy the views that, in clear weather, extend to North of Ethiopia. A 3 hour descent takes you back to the campsite in Ambiquo.

Meals:  
**B, L, D**

Activities:  
**Hiking**

## DAY 8: AMBIQUO – ARKWAZIYE

Rather than retracing your trek to Sankaber (which is the usual Simien Mountains trek) we have chosen to extend the itinerary and make the return towards Gondar through the lowlands, which will give you the chance to see a greater range of the Ethiopian countryside. Descending from your camp at Ambiquo for an hour, you then have an easy 3-hour stroll, heading back westwards to the camping place in Arkwaziye (3600m.)

It becomes progressively warmer as you descend to the camp at Loma (2000m.).
