The Guiana Shield is a 1.7 billion-year-old Precambrian geological formation in northeast South America and is one of the regions of highest biodiversity in the world. The shield has 1400 vertebrate species and 1680 bird species and is overlain by the largest expanse of undisturbed tropical rain forest in the world. Join us as we explore the Guianas: Guyana, Suriname and French Guiana. Marvel at Kaieteur Falls, the highest single drop waterfall in the world and discover one of the greatest untouched rainforests left. This region is home to endangered species such as jaguar, giant anteater, giant river otter, tapir and so much more. Spend time learning about the cultures of the region with visits to Amerindian and Maroon communities. Be amazed at the Space Centre in French Guiana and relive the story of Papillon at Devils Island. This really is an untouched and totally unique part of South America.

An overview

Guyana is one of the least-known corners of South America and truly off the beaten track with both a rich culture and a pristine environment. There are nine Amerindian tribes in Guyana and exceptional community tourism experiences. Visitors stay in community-run lodges rather than international chain hotels and can immerse themselves in village life. Guyana has excellent wildlife guides and wildlife-watching opportunities including the chance to see: Jaguar, giant anteater, giant river otters, black caiman, tapir, 8 species of monkey, tiny frogs, turtles, snakes and over 800 species of birds including the Harpy Eagle which is one of the world's largest eagles. On this trip, we will visit Kaieteur Falls which is the world's tallest single-drop waterfall and 5 times the height of Niagara Falls at 741 feet.

We continue our tour to the pier at Nieuw Amsterdam where we will be picked up for the Sunset Dolphin tour. While having a drink we enjoy the cool breeze and river views, meanwhile the captain searches the horizon for the dolphins.

Normally we see them swim by in groups of up to 20. Sometimes they're very curious and if we are lucky they will jump and play close to the boat. After having enjoyed this playful company we part for former plantation Johan and Margaretha where we will enjoy freshly made local snacks like barra, baka bana or eggroll while experiencing the beautiful sunset. All this takes place in a relaxing atmosphere on a wooden deck near the waterfront of the Commewijne River. After the sun has set we will get back on board, pour another drink, and slowly make our way back to Leonsberg. Transfer back to Paramaribo to your hotel. DAY 5: PARAMARIBO (B,L)

Paramaribo, the capital city of Suriname, has been placed on the UNESCO "World Heritage" list of historical monuments since 2002. You receive a guided tour, by car and on foot, along the most prominent historic locations in downtown Paramaribo during which you will be impressed by the unique architecture. The guide gives you extensive information about the former "Fort Zeelandia", the Presidential Palace, the Independence Square and many other monuments. The monumental buildings are a true representation of the colonial history of Suriname. After a stroll pass the Waterkant, along the bank of the Suriname River and through the Palms Garden, you will also enjoy other interesting sites such as a mosque right next to a synagogue.

We proceed to the Commewijne district which is situated to the east of Paramaribo across the Suriname River. The tour takes us along the former colonial plantations, most of which are now abandoned. We make a stop at plantation Peperpot where the old coffee and cocoa factory, deputy-director's house and the old office are located. This former plantation is one of the oldest plantations in Surinamese history. Peperpot was established by the English and already existed before Suriname was conquered by the natives from Zeeland under command of Abraham Crijnsen in 1667. This is one of the last plantations still in its former original state. On the plantation you can still see coffee and cocoa plants as well as an ancient shed and factory, the manager's residence and a kampong (workers' living area). Peperpot is renowned for the many birds which can be spotted.

From Peperpot, we make a stop at the mini-museum of Marienburg, a former sugar plantation before enjoying a delicious lunch in a typical Javanese restaurant (warung) in Tamanredjo. We then continue to the confluence of the Commewijne and Suriname Rivers at Nieuw Amsterdam. Here we will visit the outdoor museum Fort Nieuw Amsterdam. The large fortress was built as a defence for the crop fields that were situated along the upper parts of both rivers. After the tour we will transfer you by car or bus to Paramaribo.

DAY 6: PARAMARIBO TO KOUROU, FRENCH GUIANA (B,L)

After breakfast we make an early start to comfortably pace ourselves through the journey. The first leg of our travels takes us eastbound along Suriname's coastal road, to Albina border station. Formalities here rarely take more than a few minutes, and soon we find ourselves on the Ferry crossing the Maroni River headed for French Guiana or "Guyane" as it is frequently (and confusingly) called locally.

Arrival at St. Laurent du Maroni is relatively uncomplicated, and our French guide will be on hand to help us navigate the usual customs and immigration formalities. Guyane Francaise is a Department of France, so technically you have entered the EU. Evidence of this connection to the "1st world" is immediately evident: every car seems to be a late-model Mercedes, Volkswagen or Peugeot, the roads are in near perfect condition, espresso coffee is on tap nearly everywhere, and the Euro is the currency. We will continue our journey to Kourou. Visit the Center Spatiale Guyanaise (Guyana Space Center) for a tour.

Launch schedules are a closely-held secret so our schedule today may be amended on short notice. The usual tour includes a motor coach tour which criss-crosses the centre's mammoth facility, including stops at various assembly buildings, launch pads and control centres. The entire tour is offered in French, but your guide will supply translations as often as possible.

Hotel Atlantis is a modern business hotel on the edge of Bois Devil Lake with air-conditioned rooms, telephone, WiFi, satellite television and refrigerator. The spacious open lobby includes a patio overlooking the pool, lake and tennis courts. The trendy restaurant offers French and Creole cuisine and has an excellent selection of wines.

DAY 7: DEVILS ISLAND AND CAYENNE (B,L)

What is commonly referred to as “Devils Island” is really a triangle of three islands - Îles du Salut, or the Salvation Islands - seven miles off the coast of Kourou. After a breakfast buffet at the hotel, we set sail aboard a fine motorized catamaran towards our first stop, Île Saint-Joseph. The islands played a central role in French history as far back as 1792 when they were first employed as a transit point, first for explorers, then slaves and later for political prisoners and convicts.

Île Saint-Joseph is the southernmost island and was known as the silent island as inmates were not allowed to speak with other inmates or the guards. Papillon claimed to have spent two years in solitary on St Joseph. It was called the ‘man eater’ for obvious reasons. Île Royale is the site of the oldest buildings on the islands, featuring an old church, administration buildings, officers' quarters, and today, a good restaurant, café and lodging facilities. Ironically, the actual Île du Diable (Devil's Island) is inaccessible to visitors due to dangerous shoreline conditions. This is the island where the prison's best-known occupant, Alfred Dreyfus, was famously secluded and where Papillon said he was able to escape on a coconut raft.

You will spend most of the day on Île Royale. Visit the children's cemetery behind the old hospital which was used for the children of the guards. Land was at a premium so only the children were buried. The inmates were buried at sea to encourage the sharks as a deterrent to prisoners wanting to swim off the island. Make sure to back at the dock by about 1530hrs as the boat leaves promptly at 1600hrs. There are plenty of shady trees with benches under which you can catch a cool breeze. Keep an eye out for sea turtles that like to scavenge among the rocks by the dock.

Return to Kourou by Catamaran and transfer to Cayenne and to your selected hotel.

Hotel Central is located in the heart of Cayenne close to the historic Palmistes Square just a short walk from the shopping streets and the business district.

DAY 8: CAYENNE TO PARAMARIBO AND FLIGHT TO GEORGETOWN (B)

Early morning to explore Cayenne before mid-morning transfer to the border of St. Laurent du Maroni. On our way we will make a brief stop in St Joseph's church, in Iracoubo. The entire inside of the church was hand painted by one of the convicts from a nearby penal colony.

Upon arrival of St. Laurent enjoy a mini city tour of St. Laurent du Maroni where we will pay a brief visit to the well-preserved Transportation Centre. The facility once served as the Arrival station where convicts were processed to the various penal colonies in French Guiana.

Starting in the mid -18th century the majority of convicts were transported to French Guiana and served their various convictions. They then had to spend the same amount of time here as their sentence before gaining their freedom. This was a way to try to populate the colony. One of the most famous inmates was Papillon whose initials are carved in one of the cells.

DAY 9: GEORGETOWN (B,L)

Pick up from your hotel in Paramaribo and transfer to the local airport Zorg-en-Hoop for departing GUMAIR flight departing at 0730hrs to Georgetown, arriving at 0745hrs. (ticket not included in the final rates below)

Pickup and transfer from Eugene F. Correia International Airport to your hotel.

Our host, guide and culinary master, will guide us around Bourda Market, the largest of the four markets in Georgetown. We will first stop at the Guyana Store which has all the local products produced and packaged in Guyana before heading over to the market where we will meet some of the vendors who Chef buys from daily.

We will visit the fish market, the meat section and the haberdashery section - where one can find anything you can think of from thread to bolts of all kinds of fabric.

Dry goods like rice and of course demerara sugar are abundant. A stop at the bush medicine stalls is always educational. Heading outside you can see, touch and taste a variety of local fruits and vegetables unique in this part of the world. Chef will make his purchases with your suggestions of what you would like to try and will then head home to start preparing while we continue on a tour of the city of Georgetown with an experienced guide who will give you the history, rumour and facts on Georgetown and its citizens.

During your visit to Georgetown there are a number of interesting sights that should not be missed such as Stabroek Market - once described as a "bizarre bazaar,

and St. George's Cathedral which is one of the world's tallest free standing wooden buildings. Other historic buildings along this promenade are the Public Library, City Hall, the Victoria Law Courts and St. Andrews Kirk. Visit the National Museum, which contains a broad selection of our animal life portrayed in taxidermy in beautiful old glass cases, and the Walter Roth Museum of Anthropology, which houses a wonderful collection of artefacts and explains Amerindian history and life style. We will also pay a visit to a pond either in the gardens or the National Park, to feed the endangered West Indian Manatees.

After our city tour we will go to the Backyard Café for lunch. This, as the name suggests, is a backyard that Chef has turned into an exclusive little hidden gem of a restaurant. If you are interested, Chef will welcome you to join him as he prepares a wonderful meal prepared from the fruits and vegetables we bought in the market in the morning. Or you can just sit under the arbour and sip unique blends of juice or enjoy a cold beer, while taking in the sounds and smells of a delicious meal in the making. Once he is ready, we will start eating our way through the courses, remember to pace yourself as you will want to try it all.

After lunch we will visit the Botanical Gardens, home to an extensive collection of tropical flora, and the Zoo which has become a wildlife rescue and rehabilitation centre that houses over one hundred different species of tropical wildlife.

We will take a drive through the heart of the city to the Stabroek Market area. Here you will join the afternoon commuters using the old ferry stelling to board the river taxis which are used to cross the Demerara River. The river taxis are an alternative route to using the Demerara Harbour Bridge.

As you slowly cruise along the bank of the Demerara River your guide will give you a brief history of the famous buildings along the waterfront. We then continue our trip to see the Demerara Harbour Bridge, once the longest floating bridge in the world at a total length of 1,851m long. We will cross under the bridge and tie up the boat near a mangrove that is the nightly roost of about nine different kinds of birds. As the sun sets over the river we will have a cold drink and snacks or cutters as we call them here in Guyana while we enjoy flocks of brilliant Scarlet Ibis and three kinds of Egrets as they fly across the sky and settle into the Mangroves for the evening.

Soon after the sun sets you return to the ferry stelling while enjoying the city and ship lights from the river. Overnight in a deluxe room at Grand Coastal Hotel.

1130hrs pickup and transfer to Eugene F. Correia International Airport.

From the Eugene F. Correia International Airport take a scheduled flight over the Demerara and Essequibo Rivers and hundreds of miles of unbroken tropical rainforest to land at Kaieteur Falls, the world's highest free-falling waterfall.

Kaieteur which was first seen by a European on April 29, 1870 is situated in the heart of Guyana on the Potaro River, a tributary of the Essequibo. The water of Kaieteur flows over a sandstone conglomerate tableland into a deep gorge - a drop of 741 feet or 5 times the height of Niagara Falls.

There are no other falls in the world with the magnitude of the sheer drop existing at Kaieteur. Amerindian legend of the Patamona tribe has it that Kai, one of the tribe's chiefs (after whom the falls is named), committed self-sacrifice by canoeing himself over the falls. It was believed this would encourage the Great Spirit Makonaima to save the tribe from being destroyed by the savage Caribishi.

Kaieteur supports a unique micro environment with Tank Bromeliads, the largest in the world, in which the tiny Golden frog spends its entire life and the rarely seen Guiana Cock-of-the-rock nesting close by. The lucky visitor may also see the famous flights of the Kaieteur Swifts or Makonaima Birds which nest under the vast shelf of rock carved over millions of years by the black water of the Potaro River. DAY 11: IWOKRAMA RIVER LODGE AND ATTA RAINFOREST LODGE (B,L,D)

Pickup and transfer to Eugene F. Correia International Airport.

Board scheduled flight for journey over hundreds of miles of tropical rainforest to land at Fair View Airstrip. (Check in time 0700hrs, Departure 0830hrs)

Pick up from Fair View Airstrip and transfer to Iwokrama River Lodge.

After your orientation you will depart the lodge by boat, birdwatching along the way, for the hike to Turtle Mountain. A well maintained trail winds through the forest before an exhilarating climb up the mountain to its summit at 935ft (approx. 360m). It takes 1 3/4hrs to walk up the mountain, but the effort is more than worth it for the breathtaking views over the forest canopy when you get there and chances of Green Aracari, White Bellbird or a fly-by of one of five types of eagles. This trail is also a great location for seeing Black Spider and Red Howler Monkey. If you think this hike may be too strenuous you can take an alternative boat trip to Stanley Lake to search for Giant River Otters and Black Caiman.

Return to the lodge for Lunch and then transfer by 4 x 4 along the trail that is one of the best places to see the elusive Jaguar. No promises, but many have been lucky! This road is the only north – south access in Guyana and links the country to Brazil. Even so traffic is only very occasional and wildlife is often seen along the road, such as Agouti, Tayra, Tapir and Black Curassow. The journey concludes at the Atta Rainforest Lodge home of the Iwokrama Canopy Walkway.

The Iwokrama Canopy Walkway is situated near the southern boundary of the Iwokrama Reserve. The walkway has four suspension bridges leading to three platforms, the highest of which is over 30 metres above the ground, and these allow great looks at a range of canopy species, many of which you would struggle to see well from the forest floor.

Another area where we will want to spend some time is the clearing around the lodge, as this is one of the best places to see another of Guyana's "must see" birds, the Crimson Fruitcrow. This species is seen here on a reasonably regular basis, as it often comes to feed in some of the nearby trees. The clearing is also a reliable site for Black Curassow as there is a family party which has become habituated to people and regularly passes through the clearing.

Atta Rainforest Lodge is 500 metres from the base of the Canopy Walkway, offering comfortable private-room accommodation with ensuite bathrooms, delicious home-cooked meals, and traditional Amerindian hospitality. The main building is open sided with views across the gardens to the towering forest on all sides and houses the bar, dining area and kitchen. The Gardens have a wonderful collection of Heliconia flowers that attracts humming birds. Overnight at Atta Rainforest Lodge.

DAY 12: ATTA RAINFOREST LODGE TO SURAMA ECO-LODGE (B,L,D)

Before dawn return to the canopy where you will welcome the dawn chorus. From this tree top vantage you can sometimes see Red Howler and Black Spider Monkeys.

Apart from the Iwokrama Canopy Walkway itself you can enjoy wildlife and birdwatching walks on the trails around the area. For those interested in botany many of the trails have the key tree species marked. Many bird species, stunning insects, noisy amphibians, and playful primates make the surrounding forest their home. Deer, Tapir and agouti are also regular visitors to the lodge. Return to the lodge for breakfast before departure.

Transfer from Atta Rainforest Lodge by 4 x 4 vehicle or 4x4 Bedford Truck (converted with forward facing seats and canopy) through the rainforest to Corkwood in the Iwokrama Forest. Here there is a comparatively short trail to hopefully see the amazingly brilliant Guianan Cock-of-the-rock. This trail is through interesting and pristine rainforest and the guides can explain how the plants are used for medicine and other purposes. Continue the journey to the community of Surama.

The Amerindian community of Surama is located in the heart of Guyana. The village is set in five square miles of savannah which is ringed by the forest covered Pakaraima Mountains. Surama's inhabitants are mainly from the

Macushi tribe and still observe many of the traditional practises of their ancestors. The Surama Eco Lodge is owned and operated by the community. There is a rotating schedule that allows many villagers to earn a salary. The village council as the board of directors decides how the profits are to be spent to benefit the whole village.

On arrival in Surama you will receive a warm welcome and settle into your accommodation at the lodge. A guide will escort you for a short walk on trails to observe the forest and bird life. As the afternoon cools your guide will take you on a tour of the village. Visit the local school, medical centre and church along with some of the village houses. Tonight enjoy an educational walk to observe wildlife and experience the mystique of the forest after dark. Make sure to bring your flashlights to look for the eyeshine of the creatures of the night. Seven curry is a staple at all Indo-Guyanese weddings and religious functions. It is served in a freshly picked lotus lily leaf with rice and seven different curries. Traditionally the curries are all vegetarian. Most commonly served are pumpkin, bagee (spinach), catahar (breadnut), potato/channa (chick peas), boulanger (eggplant), eddoe and dhal. You hold the leaf with the curries in one hand, and use your other to eat the food. Definitely a challenge to eat gracefully, but so much fun and delicious!!
