GUATEMALA, *an overview*

Guatemala ('place of many trees') lives up to its name and gives visitors an thrilling view of Central America. The country with the highest and most active volcanoes, remarkable Mayan ruins, dense jungles and an indigenous culture that flourishes through its traditional music, lively dance and colourful embroidered clothing. The Mayan heart of Central America, Guatemala borders Mexico to the north and west, Belize to the northeast and Honduras and El Salvador to the east. Scattered around this mountainous and jungle covered country, the impressive ancient Mayan ruins and colonial buildings are a reminder of Guatemala's heritage and civilised past. Until recently, Guatemala was little visited and this culturally rich, archaeologically fascinating country, with its diverse natural environment, is a one-off that must be visited to be understood. At the end of this trip you have an optional 3 day extension to visit Monterrico on the Pacific Coast. This all black sand beach is a haven for turtles and you can visit the nurseries of the Parlama turtle as well as enjoy a mangrove tour or simply relax on the beach listening to the ocean.

We continue downstream through the Lower Gorge, where the river enters a rugged canyon of unspoiled natural beauty with a perfect mixture of exhilarating rapids, tranquil pools and natural hot springs we've dubbed 'The Little Paraiso'. NOTE: Ceibal is now being excavated by Takeshi and his team during the months of Jan-May, until 2011. The ruins are surrounded by forest and shaded by huge ceiba trees and have some outstanding and well-preserved carvings. Although there are no imposing temples here, the ruins are among the best preserved and restored in Guatemala. We have a picnic lunch at the site and continue to explore the chasm which was the natural barrier of defence for the ancient Maya city. At the end of the day, we re-board the boat to travel back (upstream) to our hotel.

DAY 9: ANCIENT CITY OF TIKAL

After breakfast, we board the boat to travel upstream to the town of Sayaxche. Here we will board a van for our transfer to the magnificent National Park of Tikal. All afternoon we can explore this incredible ancient city, considered

by most to be the most impressive in the Mayan world. You will note that most visitors to Tikal are “day trippers” arriving in the morning and leaving in mid-afternoon. As such, we will have the park largely to ourselves in the afternoon, as we will be staying overnight at the Jungle Lodge, located in the park itself. Staying in the park will give a much greater appreciation for the area and its abundant flora and fauna especially the howler monkeys and coatimundis!

Tikal and the lost world

The first beginnings of Tikal, the most impressive ancient Mayan cities, was started over 2,500 years ago. The city of Tikal hosts more than 4,000 structures. It is surrounded by 576 square kilometers of national park where jungle wildlife roam freely without the threat of man. On our tour to Tikal we will visit the Great Plaza, the Lost World Complex and the intricate architecture of the Central and Northern Acropolises. Climb one or all of the pyramid temples which tower up to 65 meters above the jungle floor to witness the breathtaking view of the thick, rainforest, which still covers many monuments and stelae. You will be astonished by the myriad of flora, fauna and sounds of the forest as you walk through this peaceful timeless space. We will also have the opportunity to admire many of the jade artifacts, ceramics and tomb contents discovered during the excavation of Tikal which are on display at the Museum of Tikal.

Note: All hotels located in Tikal Park have generated electricity, which is turned off at 9-10pm. They do have hot water.
