## CLIMB MT KILIMANJARO

Situated south of the equator - in Tanzania - at 19,340 feet, (5895m) this is Africa's highest mountain and the highest "free standing" mountain in the world. Huge permanent glaciers flow down from the summit, and spectacular views and beautiful ice formations are the reward for the successful trekker, as well as the satisfaction of conquering this mighty peak.

The main problems encountered can be altitude sickness, which can be countered by use of medicines and good basic acclimatization. The standard route is a hike - no climbing as such.

This trek is a "once in a lifetime" challenge and must not be taken lightly. We ensure that all our climbers have all the facts - medical list, equipment list, etc. long before they travel - possibly the reason for our success rate.

# MT KILIMANJARO *an overview*

On this route we utilize tents, which we supply, as well as lightweight camping mattresses etc. The Umbwe route is probably the most beautiful route by which to ascend the mountain.

All your supplies and camping equipment are portered up for you (tents, 25 mm mattresses, awnings, stools, lights, etc.), and your meals are prepared. Your personal baggage limit is 12 kg for the climb.

Tents and sleeping mattresses are supplied on this trip.

Your base hotel is located in Moshi and has a swimming pool, indoor bar and garden area, patio, and restaurant. The guides employed are excellent (some have climbed Kili over 120 times!) and look after all our clients who attempt the climb. Each trip is led by a senior guide, with other guides in a ratio of approximately one guide per 2 or 3 climbers - if you are a bit slower than the rest, a guide will always be with you. This allows you to walk at your own speed so you can successfully reach the summit. Food served on the mountain is generally plain and wholesome, including carbohydrates and fresh vegetables. Vegetarians are catered for.

## DAY 1: KILIMANJARO ARRIVAL

Meet on arrival in Kilimanjaro and transfer to the hotel. Your climb briefing will take place today, or tomorrow.

**NB:** If you need to hire any extra gear, advise the hotel shortly after your arrival. Leave any excess clothing and valuables at the hotel- they will lock them up for you. Pack your bag carefully for the climb - remember the weight limit of 12kg. Leave some 'bin bags' in an outer pocket of your bag, and show the porters where they are so that in case of rain they can quickly cover your bag. Keep one out for your personal daypack too! Liaise with staff at reception, and leave them your air tickets to be reconfirmed during your climb. It is your responsibility to ensure that flights are reconfirmed, as any schedule changes will be advised at that time.

# ADDITIONAL INFORMATION

ACTIVITY DURATION	More than 7 hours
SEASON	Dec – Mar, July – Oct
BEST TIME TO GO	Jan, Feb, Sept
GROUP SIZE	2 – 8 pax
EXPEDITION SCHEDULE	For scheduled expeditions, which coincide with the full moon, please see website or contact us.
DIFFICULTY LEVEL	Our grades have been designated based on our perception of the degree of physical activity you are likely to require to enjoy the adventure. These are only a guideline. This itinerary has a very difficult level (more than 7 hours per day). This means that you will need to be fit and training will be required.
ADVICE	When travelling (flying), we strongly suggest you wear or carry on you, your boots, wet weather gear and cameras - these are crucial for your climb and you do not want to risk losing them in the hold. Make sure you have your yellow fever certificate with you (if travelling from a country at risk of yellow fever) - whilst it probably will not be asked for on arrival in Tanzania, when you return home it may be requested. Please refer to our separate advice sheet for medical and training suggestions.
