Here we will experience the thrilling rapids and huge waves, starting with some Class III's and getting increasingly larger until the last section of Class IV's. However, this is nothing to be afraid of; as in the case of wipe-outs, there are pools at the end of each rapid which makes this river a safe, commercial-grade run.

DAY 6: Hike to GUANE and enjoy the COFFEE TOUR EXPERIENCE

Our morning will be spent hiking through some of the area's most incredible scenery and exploring one of the region's historical and architectural gems. We'll hike along the famous Royal Road (Main Andean Road), a historic trail that was originally built by the Guane Indigenous people. During the colonial period, the trail was rebuilt in stone by the Spanish Crown to gain access to the Atlantic for the export of gold and exotic South American products. This scenic trail has been declared a National Monument and has preserved its authentic feel. This easy walking hike will be framed by old stone walls and a classic farmland backdrop. Along the walk we will encounter great views and good birding opportunities, as a high concentration of species feed and inhabit this area.

Arriving in Guane is like stepping back in time and into a dreamlike atmosphere. Although the original inhabitants are nowhere to be found, the remains of their culture indicate a truly majestic past and uniquely leave the town suspended in time. We will learn a lot more about the extinct Guane culture at the anthropology museum as well as marvelling at the evolution of the town from pre-hispanic, to colonial, to modern times.

Continuing on we will make our way to the charming Hacienda el Roble. Here we will gain an insight into how Colombia's famous coffee is produced, starting from the seed; along with a fascinating walk around its beautiful grounds and plantation. A coffee-lover's paradise, this coffee hacienda is home to some of Colombia's greatest coffee!

WHEN TO GO

- Due to Colombia being on the equator, temperatures are fairly stable at 24°C throughout the year, getting cooler if you move higher inland.
- Colombia wet seasons vary depending on where you are in the country. In the North, there are 2 rainy seasons, between April and June, and between September and November. However in the South the rain is more constant but the showers never last that long.
- As for when to avoid the tourists! The busy tourism season tends to be between December to February and Easter Week (the week before Easter weekend).
