BORNEO, *an overview*

Sarawak and Sabah make up the more popular Malaysian portion of the beautiful nature playground - Borneo. This magical Island is draped in the richest and one of the most ancient equatorial rainforests on the planet. It acts as shelter to some incredible native wildlife including Orangutans and proboscis monkeys in the canopy above, pygmy elephants roaming the riversides and clouded leopards wandering the depths of the jungle. Borneo's extraordinary wilderness is made up of endless Rivers, dramatic Mountains, dense steamy Jungle, as well as some spectacular beaches. Borneo serves up true remoteness, wildlife and adventure.

WHY PIONEER EXPEDITIONS?

DAY 2: Kota Kinabalu – Kinabalu Park

Our driver and guide will be meeting to assist you at 8:30am for your transfer to the Kinabalu Park for a scenic journey into Borneo's rugged island interior. Travel along winding roads, passing paddy fields and local villages. There is over 200 species of birds in Kinabalu Park.

Kinabalu Park is one of the premier birding destinations in Borneo. The Park encompasses a range of habitats, with lowland rainforest found in the Poring Hot Springs region (around 550 meters above sea level), and lower montane forest around the Park Headquarters (1, 500 meters). Around Mesilau substation, on the eastern part of the park (2, 000 meters), the area is covered by montane forest. The richest bird community is found in the lowland rainforests of Borneo. Nevertheless, Kinabalu Park offers many birds which are only found in mountainous region, including 58 strictly montane birds - 17 of which are endemic Bornean species. In the words of one birding expert, Kinabalu Park offers "many local curiosities and specialties".
