PIONEER EXPEDITIONS

ITINERARY

14 DAYS • 13 NIGHTS

Guyana • Nature Experience

Georgetown – Kaieteur Falls – Iwokrama Rainforest – Turtle Mountain – Iwokrama Forest – Surama – Rock View Lodge – Pakaraima Mountains – Amerindian Village – Georgetown

HIGHLIGHTS

- Visit Kaieteur
- Explore the trails around Iwokrama Forest
- Boat trips in Iwokrama Forest
- Visit the world's tallest single-drop waterfall, Kaieteur Falls
- See the elusive jaguar
- Climb up Surama Mountain
- Get the opportunity to support and participate in an on-going field study of the Black Caiman

TOUR ESSENTIALS

Tour Style	Nature Adventure
Tour Start	Georgetown
Tour End	Georgetown
Accommodation	Lodge, Hotel
Included Meals	11 Breakfasts, 10 Lunches, 10 Dinners
Difficulty Level	Medium / Difficult

GUYANA NATURE EXPERIENCE

Visit Kaieteur Falls before travelling to Iwokrama for jungle hikes, boat trips, the Iwokrama Canopy Walkway, and the chance to see the elusive jaguar. Stay in the Makushi village of Surama in search of giant otters and black caiman before going into the savannah, the home of giant anteaters. A truly unique and off the beaten track adventure.

OVERVIEW

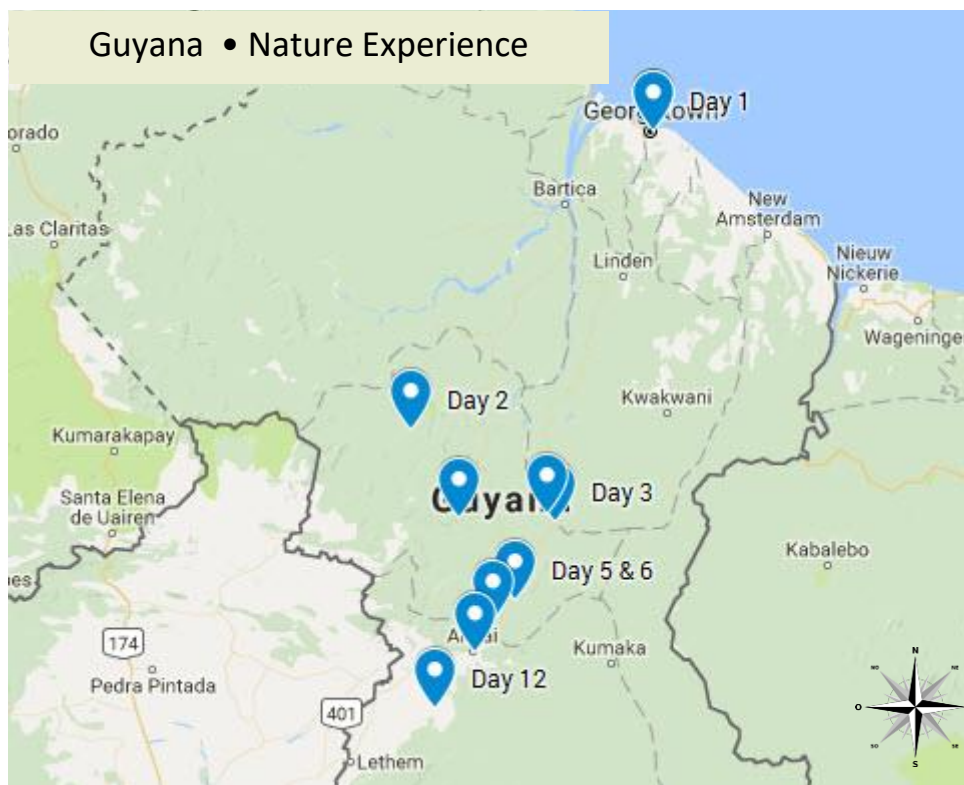

Guyana is one of the least-known corners of South America and truly off the beaten track with both a rich culture and a pristine environment. There are nine Amerindian tribes in Guyana and exceptional community tourism experiences. Visitors stay in community-run lodges rather than international chain hotels and can immerse themselves in village life. Guyana has excellent wildlife guides and wildlife-watching opportunities including the chance to see: Jaguar, giant anteater, giant river otters, black caiman, tapir, 8 species of monkey, tiny frogs, turtles, snakes and over 800 species of birds including the Harpy Eagle which is one of the world's largest eagles. On this trip, we will visit Kaieteur Falls which is the world's tallest single-drop waterfall and 5 times the height of Niagara Falls at 741 feet.

WHY PIONEER EXPEDITIONS?

Pioneer Expeditions are one of the few specialists that really *do* off the beaten track and unique adventures. The team have a real passion for wildlife and adventure travel, which we love to share with our clients. We delight in searching the world for new destinations, new experiences and creating the most incredible adventures.

We like to introduce our clients to unique, the different, and the incredible. Whether it is through wildlife tracking, sea kayaking, snorkelling, trekking, rafting, cycling or observing wildlife in its natural environment, we want to give you the real Pioneer experience.

From the moment you choose to travel with Pioneer Expeditions until you return back home, you are supported by our dedicated team. We listen to what you want and can create an itinerary around your specific needs, working with your budget and with a commitment to responsible travel. Alternatively, our small group tours have a maximum of 11 people, making it a much more personal experience.

ITINERARY

DAY 1: GEORGETOWN

We will pick you up at the airport, and then transfer you to your selected hotel.

Cara Lodge was built in the 1840's and originally consisted of two houses. It has a long and romantic history and was the home of the first Lord Mayor of Georgetown. Over the years, the property has been visited by many dignitaries including King Edward VII who stayed at the house in 1923. Other dignitaries have included President Jimmy Carter, HRH Prince Charles, HRH Prince Andrew and Mick Jagger. This magnificent home turned hotel offers the tradition and nostalgia of a bygone era, complete with service and comfort in a congenial family atmosphere.

Overnight:
Cara Lodge

Meals:
Nil

Distance:
Approx. 1hr drive

Activities:
Travel

DAYS 2: KAIETEUR FALLS

Following breakfast at the hotel we head to the airport at 11:30 for a scheduled flight over the Demerara and Essequibo Rivers and hundreds of miles of unbroken tropical rainforest to land at Kaieteur Falls, the world's highest free-falling waterfall. At 228 meters, Kaieteur is nearly five times the height of Niagara Falls.

Optional Tours:

Birding in Georgetown's Botanical Gardens

0545hrs pick up and transfer to the extensive Georgetown Botanical Gardens. Details at end of itinerary.

Evening Seawall, bars and street food experience

Details at end of itinerary.

Dinner at Aagman Indian Restaurant

Details at end of itinerary.

Kaieteur Falls:

Kaieteur Falls which was first seen by a European on April 29, 1870 is situated in the heart of Guyana on the Potaro River, a tributary of the Essequibo. The water of Kaieteur, one of the world's natural wonders, flows over a sandstone conglomerate tableland into a deep gorge - a drop of 741 feet or 5 times the height of Niagara Falls. There are no other falls in the world with the magnitude of the sheer drop existing at Kaieteur. Amerindian legend of the Patamona tribe has it that Kai, one of the tribe's chiefs (after whom the falls is named), committed self-sacrifice by canoeing himself over the falls. It was believed this would encourage the Great Spirit Makonaima to save the tribe from being destroyed by the savage Caribishi.

Kaieteur supports a unique micro environment with Tank Bromeliads, the largest in the world, in which the tiny Golden frog spends its entire life and the rarely seen Guiana Cock- of-the-rock nesting close by. The lucky visitor may also see the famous flights of the Kaieteur Swifts or Makonaima Birds which nest under the vast shelf of rock carved

by the centuries of water, hidden behind the eternal curtain of falling water.

Note: Flights to Kaieteur Falls are operated on chartered aircraft and all flights have a minimum passenger restriction. Therefore, any booking to Kaieteur is subject to a minimum of 5 passengers being available to travel. In most cases we are able to fill. If a flight is cancelled due to this or circumstances beyond our control, such as weather, we will endeavour to reschedule the flight during your itinerary. If this is not possible then a full refund on the flight will be made.

Exploring

DAYS 3: THE IWOKRAMA RAINFOREST

Today after breakfast we take the scheduled flight for journey over miles of tropical rainforest to land in the Rupununi. Transfer by 4x4 vehicle or 4x4 Bedford Truck to Iwokrama River Lodge.

Iwokrama Rainforest

The Iwokrama Rainforest is a vast wilderness of one million acres. This protected area was established in 1996 as the Iwokrama International Centre for Rainforest Conservation and Development. The Iwokrama Forest is in the heart of one of four last untouched tropical forests of the world - The Guiana Shield of North-Eastern South America. Iwokrama was established as a living laboratory for tropical forest management because the unsustainable utilisation of these forests will result in the extinction of half the world's plant and animal species and unknown changes to global climate.

This is a protected area with a difference - the full involvement of people. Iwokrama is exceptional among conservation organizations

because it joins with local people in every aspect of its work. From research to business, Iwokrama ensures local economic and social benefits from forest use and conservation. The Forest is in the homeland of the Makushi people, who have lived here and used the forest for thousands of years. People are a vertical part of the ecosystem. The success of Iwokrama relies on the ownership of local people and the combined skills of specialists and communities. Iwokrama does what so many International conventions have acknowledged as best practice. It has begun conservation locally and integrated conservation into national development.

Explore the trails around the lodge with an Iwokrama Ranger. Iwokrama is home to many bird species including Capuchinbird, Black Nunbird, Chestnut-rumped Woodcreeper, Amazonian Antshrike, Brown-bellied Antwren, Spot-tailed Antwren, Todd's Antwren, Spotted Puffbird, Green Aracari, Guianan Toucanet, Guianan Red Cotinga, Pompadour Cotinga, Rufous-crowned Elaenia, Bronzy Jacamar, Chestnut & Waved Woodpecker, Gray Antbird, and Strong-billed Woodcreeper. Three other Neotropical species in the Iwokrama forest of high interest are White-winged Potoo, Rufous Potoo, and Rufous-winged Ground-cuckoo.

The forest is also home to many mammals and you may see Red-rumped Agouti and various species of monkey including Red Howler, Black Spider and Wedge-capped and Brown Capuchins.

After dark we'll set out on the river, in hope of finding one of its four species of caiman, and listen for night birds such as Spectacled Owl, White-winged Potoo, Rufous Potoo, Long-tailed Potoo, Zigzag Heron or Blackish Nightjar. You may see one or more of the four species of caiman, and most

t 01202 798922 • e info@pioneerexpeditions.com

Guy01

certainly snakes including Cox boa, tree frogs and if lucky maybe some mammals. Maybe even a puma or capybara.

The Iwokrama River Lodge is set overlooking the Essequibo River. Accommodation is offered in eight spacious timber cabins with shingle roofs, bathroom facilities, and veranda overlooking the river. Running water and flush toilets are standard; however, water is not heated (and rarely desired in the tropical heat).

Electricity is provided by a combination of solar and diesel generator systems, and wireless internet access is provided for free in the main building. Meals are served buffet-style in the Fred Allcock dining hall, where you can mingle with the rangers, administrative and scientific staff.

Overnight:
Iwokrama River Lodge

Meals:
B, L, D

Distance:
Varies

Activities:
Exploring

DAY 4: HIKE TO TURTLE MOUNTAIN

Making an early start, we'll embark on the Essequibo and circumnavigate nearby Indian House Island, before returning to the River Lodge for breakfast.

Leave the lodge by boat, bird watching along the way, for the hike to Turtle Mountain. A well maintained trail winds through the forest before an exhilarating climb up the mountain to its summit at 935ft (approx. 360m). It takes 1 3/4hrs to walk up the mountain, but the effort is more than worth it for the breath taking views over the forest canopy when you get there and chances of Green Aracari, White Bellbird or a fly-by of one of five types of eagles. This trail is also a great location for seeing Black Spider Monkey and Red Howler Monkey and if you are very lucky even a Jaguar. This pristine forest offers huge buttress trees and the endemic Greenheart, a highly sought after hardwood. If you think this hike may be too strenuous you can take an alternative boat trip to Stanley Lake to search for Giant River Otters and Black Caiman.

As the afternoon cools you set out on a boat trip to visit Kurupukari Falls to see the Amerindian petroglyphs (dependent on the water level).

Overnight:
Iwokrama River Lodge

Meals:
B, L, D

Distance:
N/A

Activities:
Hiking

DAYS 5: IWOKRAMA FOREST

Explore the trails around the lodge with an Iwokrama Ranger.

Transfer by 4 x 4 along the trail that is one of the best places to see the elusive Jaguar. The Iwokrama forest is rapidly gaining an international reputation for its healthy jaguar populations that seem not to be troubled by the appearance of curious humans. No promises, but many have been lucky! Along the road, we will watch for the myriad of bird species that frequent the forest edge, including Crimson and Purple-necked Fruit-crow, Crimson Topaz, Green Oropendula, Spotted and Guianan Puffbird, Scarlet and Red-and-Green Macaw, Blue-cheeked and Orange-winged Parrot and

Gray-winged Trumpeter. This road is the only north – south access in Guyana and links the country to Brazil. Even so traffic is only very occasional and wildlife is often seen along the road, such as Agouti, Tayra, Puma, Tapir and Black Curassow. The journey concludes at the Iwokrama Canopy Walkway.

The Iwokrama Canopy Walkway is situated at Mauisparu, near the southern boundary of the Iwokrama Reserve in central Guyana. The walkway has four suspension bridges leading to three platforms, the highest of which is over 30 metres above the ground, and these will allow great looks at a range of canopy species, many of which you would struggle to see well from the forest floor. Amongst the likely highlights are Painted, Brown-throated and Golden-winged Parakeets, Caica Parrot, Guianan Puffbird, Waved and Golden-collared Woodpeckers and Spot-tailed, Todd's and Ash-winged Antwrens. The walkway is also an excellent place to look for various species of cotinga including the poorly known and range-restricted Dusky Purpletuft and if there are any suitable fruiting trees nearby, you stand a good chance of seeing this bird, as well as the more widespread Purple-breasted Cotinga.

Another area where we will want to spend some time is the clearing around the lodge, as this is one of the best places to see another of Guyana's "must see" birds, the Crimson Fruitcrow. This species is seen here on a reasonably regular basis, as it often comes to feed in some of the nearby trees. The clearing is also a reliable site for Black Curassow as there is a family party which has become habituated to people and regularly passes through the clearing. With reasonable luck, you should be able to add this bird to the impressive list of species you will see around the lodge and walkway.

Atta Rainforest Lodge is 500 metres from the base of the Canopy Walkway, offering comfortable private-room accommodation with ensuite bathrooms, delicious home-cooked meals, and traditional Amerindian hospitality. The lodge is completely surrounded by tropical rainforest which offers a complete immersion in the rainforest experience. The main building is open sided with views across the gardens to the towering forest on all sides and houses the bar, dining area and kitchen.

Overnight:
Atta Rainforest Lodge

Meals:

Guy01

DAY 6: ENJOY WILDLIFE AND BIRD WATCHING IN IWOKRAMA FOREST

Before dawn we will return to the canopy where we can birdwatch easily and may see Rufous-throated Sapphire, Green Aracari, Pygmy Antwren and Guianan Streaked-Antwren. With some luck Guianan Toucanet, Pompadour Cotinga, Buff-cheeked Greenlet and a host of crown specialists may come within our view. From this tree top vantage you can sometimes see Red Howler Monkeys and Black Spider Monkeys.

Apart from the Iwokrama Canopy Walkway itself you can enjoy wildlife and bird watching walks on the trails around the area. For those interested in botany many of the trails have the key trees species marked. Many bird species, stunning insects, noisy amphibians, and playful primates make the surrounding forest their home and you can be fairly certain to spot some extraordinary wildlife without even trying too hard. Deer and agouti are also regular visitors to the lodge. Serious birders will want to search the undergrowth for the rarely seen Rufous-winged Ground-cuckoo.

As dark falls on the canopy walkway, you may see the White-winged Potoo Night walks are also possible and something interesting or new always seems to pop on to the scene including the occasional jaguar (*panthera onca*) along the transnational road near the lodge.

Overnight:
Atta Rainforest Lodge

Meals:
B, L, D

Distance:
N/A

Activities:
Wildlife

DAY 7: SURAMA

Welcome the dawn chorus from the canopy walkway and then return to the lodge for breakfast before departure.

Transfer from Atta Rainforest Lodge through the rainforest to Corkwood in the Iwokrama Forest. Here there is a comparatively short trail to hopefully see the amazingly brilliant Guianan Cock-of-the-rock. This trail is through interesting and pristine rainforest and the guides can explain how the plants are used for medicine and other purposes. Continue to the community of Surama.

The Indigenous community of Surama is located in the heart of Guyana. The village is set in five square miles of savannah which is ringed by the forest-covered Pakaraima Mountains. The villagers of Surama are mainly from the Macushi tribe. The Surama Eco Lodge is owned and operated by the entire community. The Village Council serves as the Board of Directors and through consultation, they decide how the profits from the tourism business are to be spent to benefit the entire community.

On arrival in Surama you will receive a warm welcome and settle into your accommodation. A guide will escort you for a short walk on trails to observe the forest and bird life. As the afternoon cools your guide will take you on a tour of the village. Tonight, enjoy an educational walk to observe wildlife and experience the mystique of the forest after dark. Make sure to bring your flashlights to look for the eyeshine of the creatures of the night.

Overnight:
Surama

Meals:
B, L, D

Distance:
Approx. 1hr drive

Guy01

DAY 8: CLIMB UP SURAMA MOUNTAIN

Rise before dawn for a walk across the savannah and then climb up Surama Mountain for incredible views across the village and savannah to the Pakaraima Mountains. This is not a technical climb but can be arduous, especially after rain, and not for everyone. Your guides will happily offer alternative activities if you prefer not to do this climb.

Return to village for lunch and then take a three mile walk across the savannah and through the rainforest to the Burro Burro River. Your guides will then paddle you on the Burro Burro River for opportunities to observe Giant River Otters, Tapir, Tira, Spider Monkeys and many more species. Return to village for sunset.

Overnight:
Surama Eco-lodge

Meals:
B, L, D

Distance:
N/A

Activities:
Hiking

DAY 9: ROCK VIEW LODGE

Enjoy dawn breaking across the rainforest. You can choose from a forest walk to look for wildlife and birds or relax around the lodge before breakfast and departure. Transfer by from Surama to Rock View Lodge at Annai.

Rock View Lodge is located where the savannah meets the forest-covered foothills of the Pakaraima Mountains. With its tropical gardens and flowering trees, the lodge resembles an oasis in the savannah, and attracts many species of birds, particularly nectar feeders and frugivores. Nearby patches of light forest are home to certain ant birds and flycatchers, and of course the grasslands support an avifauna of their own.

Eight comfortable rooms have ensembles and feature a patio and hammock for relaxing. Meals are served in the dining room under the mango trees and most of the produce is grown on the property. The pool has a lovely setting in the gardens and is welcome respite on a hot day.

You can see how cashews are roasted and see how local handicrafts are made and maybe even try your hand at them yourself. The labour-intensive method of cracking open the roasted nuts along with the self-ignition of the nuts as the acid content burns off are a spectacular sight. You can then taste the freshly roasted nuts.

Overnight:
Rock View Lodge

Meals:
B, L, D

Distance:
Approx. 30min drive

Activities:
Exploring

DAY 10: HIKE PAKARAIMA MOUNTAINS

At dawn take a hike in the foothills of the Pakaraima Mountains on the Panorama Trail where you might see Cinereous Mourner, Finsch's Euphonia, Reddish Hermit, Rufous-bellied Antwren, Green-tailed and Yellow-billed Jacamar. The views across the savannah and villages as the sun rises are spectacular.

Guy01

Travel south by road from Rock View Lodge to Ginep Landing. From Ginep Landing we take a boat trip on the Rupununi River to Karanambu Lodge. Depending on the river level, this trip offers an excellent opportunity to look for Giant Otters as there are several family groups which live along this stretch of the Rupununi River.

Karanambu, a 110-square mile former cattle ranch, is the home of Diane McTurk, conservationist and a world-renowned expert on giant otters. Karanambu is located in the North Rupununi, a region of southwestern Guyana known for its expansive wetlands and savannah, as well as its biological and cultural diversity. Settled in 1927 by Tiny McTurk, Karanambu was once a working cattle ranch and Balata collection station. It is now an eco-tourist destination known as The Karanambu Lodge. Karanambu encompasses savannah, marshy ponds, riparian forest, and a 30-mile stretch of the Rupununi River.

The North Rupununi of southern Guyana is an extraordinary natural and pristine area. The landscape is an integration of four ecosystem types: wetlands, savannahs, rivers, and forests. The number of species found here is much higher than expected given its size. There are at least 600 species of fish, along with 600 species of bird, and over 200 species of mammals. Karanambu is located roughly in the middle of this beautiful and fascinating biological hotspot where endangered species like the Giant Otter, Black Caiman, Jaguar, Giant Anteater, and Arapaima can be found. The seasonally flooded savannahs and forests also draw substantial fish migrations. There may be as many as 700 species of fish at Karanambu — more than anywhere on Earth.

This region is rich in history, too. The North Rupununi is the homeland of the Makushi and earlier peoples dating back almost 7,000 years ago. Village neighbours include the Makushi villages of Kwaimatta, Massara, Yupukari, Toka, and Simoni. Several prominent explorers and naturalists have written about their experiences here, including Robert and Richard Schomburgk, Charles Waterton, Evelyn Waugh, Gerald Durrell, and David Attenborough. Lake Amuku, not far from Karanambu, was once considered by Sir Walter Raleigh, and later by Alexander von Humboldt, and others to be the location of Lake Parime on whose banks the golden city of “El Dorado” was said to be located.

The romance of the Rupununi pioneers lives on at Karanambu. The compound has the flavour of an Amerindian Village. Because of the remoteness of Karanambu, staff live on site and the children can be seen and heard on the weekends and holidays when they come “home” from schools in the nearby villages of Yupakari, Kwaimatta and Massara. This feeling of community is further enhanced by the accommodations, which are traditionally made clay brick cabins. Each private cabin can accommodate two people and includes private bathroom and Veranda with hammocks.

With both the river and the savannahs close at hand there is a wide variety of activities to be enjoyed at Karanambu. You are free to determine what you want to do based on your interests, the time of year and whether the guides have found anything especially unique and interesting to see. Two guided excursions are provided each day — one early in the morning and another late in the afternoon and into the evening. As well as being the coolest times to be out, these are usually the best times to see the different birds and animals. Trips may be on the river by boat, on the savannahs by Land Rover or along forest trails on foot to the different ponds in the area.

Late in the afternoon we will travel by boat to look for wild Giant River Otters and as dusk falls to the ponds to see the giant Amazonia Regis water lily, bloom at dusk. On the return trip we will spotlight for Black Caiman and birds and creatures of the night.

Overnight:
Karanambu Lodge

Meals:

Guy01

DAY 11: PAKARAIMA MOUNTAINS

This morning we may make an early start to reach an area of rolling grasslands, which is home to a population of giant anteaters. With luck we shall locate one of these six-foot long animals excavating its breakfast from one of the red termite mounds that stud the savannah. The giant anteater, also known as the ant bear, is a large insectivorous mammal native to Central and South America. It is recognizable by its elongated snout, bushy tail, long fore claws and distinctively coloured pelage. It feeds primarily on ants and termites, using its fore claws to dig them up and its long, sticky tongue to collect them. Though giant anteaters live in overlapping home ranges they are mostly solitary except during mother-

offspring relationships, aggressive interactions between males, and when mating. Mother anteaters carry their offspring on their backs until weaning them.

An evening visit to a nearby pond to see hundreds of Ibis, Anhinga, Heron and Egret roosting (only in rainy season) is a highlight. If you are interested in bird watching you can explore woodland patches or gallery forest along the river where we'll hope to find such species as Spotted Puffbird, Striped Woodcreeper, Pale-bellied Tyrant-Manakin, Golden-spangled Piculet, Bearded Tachuri and Capuchinbird. A feature bird for the area is Agami Heron. An evening walk along the airstrip offers seven species of nightjar and among the grasslands the Double-striped Thick-knees.

Overnight:
Karanambu Lodge

Meals:
B, L, D

Distance:
N/A

Activities:
Wildlife

DAY 12: TRANSFER TO AMERINDIAN VILLAGE OF YUPUKARI AND CAIMAN HOUSE

In the event you did not see a giant anteater the previous morning, there is time to travel out to search the savannah again. Or explore the Rupununi River making a boat journey along quiet stretches of river. The Honey Pond trail is also an option. This trail goes around three different ponds or lakes covered in water lilies. There is also a Capuchin bird Lek along the trail. Something interesting usually presents itself.

Return to the lodge for breakfast before departure. After breakfast we say our goodbyes and transfer upriver by motorized boat to the nearby Amerindian village of Yupukari and Caiman House.

At the edge of Yupukari Village in the Central Rupununi is Caiman House Field Station, a combination guest-lodge and education centre focused on research and conservation projects along the nearby Rupununi River. The Field Station is the hub of several participatory development projects, including the introduction of classroom libraries in all three village schools and an Internet-enabled public library. Visitors may have the opportunity to meet local craftspeople, including the furniture builders at Yupukari Crafters, a nonprofit venture to create village jobs and generate income to sustain educational development.

Guy01

As a guest you have the unique opportunity to support and participate in an ongoing field study of the Black Caiman (*Melanosuchus niger*), the largest member of the alligator family and an endangered species. You are invited to accompany the indigenous crew as they search for and capture Black Caiman on the river. Guests will observe the capture from a separate boat, but will be offered the opportunity to assist in data collection. Caiman are weighed, measured, sexed and tagged before being released back into the river. The research has already discovered interesting information on caimans' nests and diet.

Overnight:
Caiman House

DAY 13: TRANSFER TO GEORGETOWN

Vehicle transfer from Caiman House to airstrip to board scheduled flight for journey over the Demerara and Essequibo Rivers and hundreds of miles of tropical rainforest to land at Eugene F. Correia International Airport.

Pickup at the airport and transfer to Georgetown.

This afternoon enjoy a tour of the city of Georgetown with an experienced guide who will give you the history, rumour and facts on Georgetown and its citizens. We will begin our tour at the Georgetown Seawalls before continuing into the heart of the city.

During your visit there are a number of interesting sights that should not be missed such as Stabroek Market - once described as a "bizarre bazaar, and St. George's Cathedral which is one of the world's tallest free standing wooden buildings. Other historic buildings along this promenade are the Public Library, City Hall, the Victoria Law Courts and St. Andrews Kirk. Visit the National Museum, which contains a broad selection of our animal life portrayed in taxidermy in beautiful old glass cases, and the Walter Roth Museum of Anthropology, which houses a wonderful collection of artefacts and explains Amerindian history and life style.

We will visit the Botanical Gardens, home to a collection of tropical flora, and the Zoo which has become a wildlife rescue and rehabilitation centre that houses over one hundred different species of tropical wildlife. We will also pay a visit to a pond either in the gardens or the National Park, to feed the endangered West Indian Manatees.

This evening pickup and transfer to Backyard Café for dinner.

Backyard Café is located in the West Ruimveldt area where our host, guide and culinary master, Chef Delven Adams will greet you as you enter.

Guy01

This as the name suggests, is a backyard that Chef Delven has turned into an exclusive little hidden gem of a restaurant. It is a Guyanese fusion from all over the world.

Delven makes his purchase based on clients' suggestions and dietary requirements from the local market.

If you are interested, Chef has a smoker and small fireside right outside and sometimes will prepare the fresh fish right there and you can certainly help him and learn his secrets. His garlic fish is out of this world! You can sit under the arbor and sip unique blends of juice or enjoy a cold Banks Beer, while taking in the sounds and smells of a delicious meal in the making in a secluded back yard in Georgetown.

Once he is ready, we will start eating our way through the courses. We will start with an appetizer, to an entrée and end up with a dessert, which we may be hard pressed to fit in, but we will give it our best shot and remember to pace yourself as you will want to try it all.

Overnight:
Cara Lodge

OPTIONAL TOURS

DAY 2

Birding in Georgetown's Botanical Gardens - 3 Hours duration

Approx price pp £55 (based on 2 people)

0545hrs pick up and transfer to the extensive [Georgetown Botanical Gardens](#) where, if we are lucky, we will have views of the Blood-coloured Woodpecker. This colourful Veniliornis is found only in the Guianas and even there almost wholly limited to the narrow coastal plain. The gardens host Snail Kite, Gray Hawk, Pearl Kite, Carib Grackle, Red-bellied and Red-shouldered Macaws and the rare festive parrots. We will walk on trails in the back of the gardens and may see Yellow-chinned Spinetail, Black-crested Antshrike, Silver-beaked Tanager, Buff-breasted Wren, Golden-spangled Piculet and Ashy-headed Greenlet. You may even want to take a break from birding to feed some manatees in one of the nearby ponds.

Guy01

Evening Seawall, bars and street food experience

Approx price pp £105 (based on 2 people)

Every Sunday evening Georgetown's Seawall comes alive as families, courting couples and friends promenade enjoying the Atlantic sea-breeze. The narrow strip becomes a hive of pop-up cocktail bars, street food vendors selling all kinds of 'cutters' or tapas, blaring Caribbean music and parties spilling out of the trunks of cars. This is the 'Seawall Lime'. This excursion takes you into the heart of the scene visiting various bars and enjoying street food, with your guide, who knows all the best places. We will also visit other local bars around the city, looking for what is popular, traditional or unusual. Every Sunday is a new experience, tailored around the group and the level of immersion into the local culture they wish to enjoy.

Dinner at Aagman Indian Restaurant

Approx price pp £52

The name "**Aagman** " is derived from India's ancient Sanskrit script, which means "ARRIVAL " or "BEGINNING". Aagman's food philosophy is driven by a desire to present eclectic and expansive Indian repertoire, bursting with flavours and originality, as a multi-sensory dining experience. Experience epicurean Mughlai Cuisine from the imperial kitchens of India. Enjoy the authentic flavours of creations achieved through the use of the finest ingredients and cooking techniques, in elegant yet subtle fully air-conditioned interiors inspired by the spices. Relax, entertain or simply enjoy whilst their intuitively attentive staff enhance the dining experience.

Day 2 Flight upgrade option:

See notes on Kaieteur Falls flight upgrade options below.

Condition of Sale :

Flights to Kaieteur Falls are operated on chartered aircraft and all flights have a minimum passenger restriction. Therefore, any booking to Kaieteur and Orinduik Falls is subject to a minimum of 12 passengers being available to travel. In most cases we are able to fill flights, especially if scheduled for a weekend. However, in the rare case that we cannot meet the required numbers we will reschedule the trip to another day during your stay, if this is possible. Wilderness Explorers retains the right to reschedule a flight as a first option. If we cannot reschedule the flight Wilderness Explorers will guarantee a flight, with a minimum of 2 passengers, to Kaieteur Falls only. If a flight is cancelled due to circumstances beyond our control, such as weather, we will endeavour to reschedule the flight during your itinerary. If this is not possible then a full refund on the flight will be made.

THE PIONEER BOOKING PROCESS

Where do you go from here? Well, you can feel free to email us at info@pioneerexpeditions.com if you're interested in this trip, or any of our other expeditions from around the world. Visit our website www.pioneerexpeditions.com to unearth all of our other equally amazing trips and destinations.

1. Contact us -

We will be happy to answer any questions or enquiries you may have. From here we will begin to plan and put together your dream adventure holiday! Alternatively, on our website you will find our booking and enquiry forms; once filled in, we will be notified of your enquiry and will get back to you ASAP.

2. Leave everything to us -

Everything will be arranged and booked by us, but we will make sure to keep you updated every step of the way. In addition, we can arrange your international flights if needed, as we have access to competitive airfares. We can also arrange any additional tours or additional night's accommodation.

3. Wait for your adventure to begin -

Sit back and count down the days until your trip of a lifetime with Pioneer Expeditions. We'll handle all of the last minute preparations and provide you with everything you need. All practical information will be sent out to you, prior to your trip.

If you feel like altering this itinerary to suit your personal preferences, we can arrange all of that and more – just get in contact with us and let us know your requirements and wishes. From here, we can simply tailor-make your dream holiday.
