### THE NICARAGUA EXPLORER

A fantastic action packed adventure that allows you to see the very best of Nicaragua. Explore colonial cities, soaking up the history and atmosphere; peek into the rim of active volcanoes & walk through the rain forest; and swim through Somoto Canyon. This trip provides for an unforgettable holiday in one of Central America's most diverse, friendly and beautiful countries. We can tailor this trip to suit your requirements.

# NICARAGUA, *an overview*

Made up of majestic mountains, farms, wetlands crammed with wildlife and deserted jungle-clad beaches, Nicaragua, known as the land of the lakes and rumbling volcanoes offers some extraordinary landscapes and is a colonial splendour. The irresistible understated charm and beauty of Nicaragua is often overshadowed by its famous Central America counterparts. However it's thriving natural beauty rivals that of Costa Rica, minus the crowds; Nicaragua remains one of the largest yet lesser visited nations within Central America and is delightfully situated under the tourist radar. Nicaragua's untamed outdoors is a biodiversity hotspot, featuring remote indigenous communities, overgrown ruins and untouched rainforests. It's tropical, with both rich history and an exotic Latin culture which the friendly local love to share. Bursting with uninterrupted nature and landscapes, Nicaragua's little-visited rainforests, valleys, beaches and islands are brimming with wildlife, including Howler Monkeys, Jaguars and Sloths, as well as a multitude of tropical birds.

## DAY 1: TRANSFER TO GRANADA FROM MANAGUA AIRPORT

Upon arriving in Managua we will be met at the airport before being our transfer to our hotel in Granada (29 miles away, approx. 1 hour away).

Granada was founded in 1524 and is believed to be the second oldest city established in mainland Latin America by the Spanish conquest. During colonial times, Granada saw much unrest as the city was attacked several times by pirates.

Nowadays Granada is characterized by bright-colored Spanish-colonial architecture, visible throughout the city center. The ambiance is very pleasant and there is a wide array of nice restaurants and bars, especially along the boulevard from the central park to the shores of Lake Nicaragua. While the city in itself is already an impressive attraction, the immediate surroundings make Granada a place where you will want to spend a couple of days.

You will head to Las Isletas where you will stay on one of the islands.

Las Isletas de Granada is an archipelago consisting of 365 small islands. They are situated in Lake Nicaragua, just about 3 kilometers (1.8 miles) away from the town of Granada. Thousands of years ago, Mombacho Volcano erupted and huge rocks that were thrown in the air due to this eruption created these islands. The islands are inhabited by approximately 1200 people who make their living from fishing. On some of the islands, luxurious hotels or private houses can be found. Many species of birds and a great variety of flora and fauna can be observed in the area of Las Isletas, and the easiest way to do so, is by doing a boat ride in the lake or hire a kayak.

The Río San Juan begins in the immense Lake Nicaragua and runs roughly 200 kilometers before connecting with the Caribbean Sea. Halfway down the river the enormous IndoMaíz Reserve gives visitors the opportunity to see hundreds of different bird species, including toucans, eagles, herons, egrets, and cormorants.
