# UGANDA, *an overview*

Referred to as the ‘Pearl of Africa’, this small, yet tall African nation is transforming from its dark past and is now firmly considered as a true highlight of the continent. Towering majestic mountains, extreme biodiversity, a stunning merge of the East African savannah and central African rainforest and some extraordinary creatures are all what makes Uganda so fantastic. What’s more, Uganda is home to Africa’s tallest mountain range, the continent’s biggest lake and is the base of Earth’s longest river. Half of the planet’s surviving mountain gorillas exist in Uganda and are known as the country’s most famous inhabitants also residing in Uganda. Along with the famous Gorilla, other wildlife gems include the Chimpanzee as well as all 5 contenders of ‘the big 5’. Often surpassed by the African giants, neighboring Tanzania and Kenya; the magnificence of unspoilt Uganda is finally shining through and is even considered to be one of the safest nations within Africa, (*apart from the odd hungry hippo*). Uganda has everything you could want from an extraordinary visit to Africa and so much more, you’ll become besotted with its natural beauty and wildlife.

## DAY 2: KAMPALA – ZIWA RHINO SANCTUARY, NIGHT WALK

You will wake up to an early breakfast and then embark on your journey to Ziwa Rhino Sanctuary where you will have your Rhino Trekking activity and the Night walk in the late evening. Ziwa Rhino and Wildlife Ranch located in Nakasongola district is the proud home of the only wild rhinos in Uganda. The Rhino reintroduction project was a project of Rhino Fund Uganda and Uganda Wildlife Authority. We are conveniently located 176km (100 miles) north of Kampala on the Gulu highway towards Murchison Falls (branch off at Nakitoma Trading center). Ziwa is the only place where you will be able to see rhinos in the wild. Presently the sanctuary is home to thirty-two (32) southern white rhinos. The sanctuary has become increasingly popular with tourists; for Rhino Trekking, Shoebill Trek and Canoe Ride, Bird Watching, Night Walk, Nature Walk and Relaxation.

## DAY 3: KAMPALA- MURCHISON FALLS NATIONAL PARK

After breakfast you will head out for your early morning shoe bill canoe and then after your shoe bill canoe trek we depart by road for Murchison falls National Park. This scenic drive takes approximately 4 hours (excluding stops) giving you a good insight on Uganda's way of life with plenty of wildlife & birds en-route. We have the option of driving to the top of the falls before reaching your lodge. This is a fantastic sight: Here the Nile is forced through a narrow gap in the rocks (only 7 meters wide) before ferociously plunging down 43 meters. We will then take the ferry to our lodge.

Giraffe, Lions, Warthog, Cape Buffalo, Uganda Kob, Hartebeest and Elephants. It is also home to over 360 species of birds.

We will head back to the lodge in time for lunch and relaxation before heading out again, this time on a boat safari on the Nile.

Another fantastic wildlife experience where you will have the opportunity to see a large concentration of Nile crocodile, hippos and numerous water-birds including the rare shoebill stork.

The boat trip heads towards the bottom of the falls before returning back to the lodge, however for those wanting some activity the boat can drop you at the bottom of the falls and you can walk back to the top where your guide/vehicle will be waiting for you.

We set off early this morning for a short drive to Kibale National Park. We meet at the ranger station for a briefing to track a habituated chimp group - These delightful apes, more closely related to humans than any other living creature, are tremendous fun to watch as they squabble and play in fruiting trees. The exciting activity begins in the morning and may take a whole day or a few hours. As the chimps warm up, they start to make their way down to the forest floor – and here we are able to trek with them for a while as they go about their daily business.

Besides our close cousins, the chimpanzees, there are other primates likely to be encountered. These include Red Colobus, Hoesti, Black-and-White Colobus, Red Tailed Monkeys, Grey-Cheeked Mangabey and other primate species.

We head back to our lodge for lunch before spending the afternoon at leisure (or and optional swamp walk at Bigodi wetland).

## DAY 8: KIBALE – QUEEN ELIZABETH NATIONAL PARK

After breakfast, we check out and drive to Queen Elizabeth National Park (approx. 3 hours away). The drive passes through Fort Portal southwards along the Eastern length of the Ruwenzori Mountains. On a clear day you may see the glaciated peaks as you gently descend into the Great Rift Valley to the park. The Rwenzori Peaks provide a magnificent backdrop to antelope-filled plains.

Queen Elizabeth National Park covers about 2,000 square kilometers and spreads along the eastern shore of the Rift Valley's Lake Edward.

We can expect to see teeming herds of impala-like Uganda Kob, as well as topi, elephant and lion, giant forest hog, Cape buffalo. There are also

several soda lakes filling ancient volcanic calderas where flamingos reside seasonally. Enjoy the evening game drive with the possibility of seeing leopards as the sun goes down.

## DAY 9: QUEEN ELIZABETH NATIONAL PARK

We set out early in the morning for a game drive (approx. 5 hours) in the northern part of the park on the Kasenyi Track in search of lions, elephants, solitary buffaloes. This is the best time for opportunities of viewing the cats in action owing to the vast population of Uganda Kobs. We have an excellent chance to view just about every animal here at very close range. In the afternoon we will go for a boat trip along the Kazinga Channel. This gives us the opportunity to view wildlife up close: hippo's huff and spray a mere foot away from the boat, buffalo linger in the shallows. The shores of the channel are also home to an array of birds including pink backed pelicans, pied and malachite kingfishers, saddle billed stork, fish eagles and many others.

## DAY 10: QUEEN ELIZABETH NATIONAL PARK – Bwindi National Park

After breakfast we drive to Bwindi Impenetrable Forest. On the way we can choose to via Maramagambo Forest for a nature walk and visit the bat caves where you may observe thousands of bats within inches of their roosts and often pythons and monitor lizards poised to strike by the cave entrance, or to go to Ishasha for a game drive in search for tree climbing lions.

## DAY 11: Bwindi National Park (Gorilla Trekking)

After an early breakfast we take a short drive to the park offices for briefing. After a briefing from the park's guides, we set out on our long-anticipated adventure – an amazing finale to the trip of a lifetime – gorilla trekking.

There are 3 habituated gorilla families and you will be allocated one of them. One of the families tends to live nearer to the outskirts of the forest, so the trek will

be shorter and easier. Your guides will discuss your fitness / medical levels with you before the morning and will try and allocate the right group for you. Your trek may last a few hours or the whole day.

Be prepared for a challenging trek through the forest and bamboo covered slopes accompanied by the guide and trackers. The trek can involve travelling deep into this dense jungle described by early explorers as “The Impenetrable Forest”. Expect to walk a long distance in steep and muddy conditions before you encounter any gorillas. Your reward for your trek is out of this world as you experience these majestic and calm apes. For conservation purposes, you are able to spend an hour observing and following the gorillas before heading back out of the jungle to find our guides.

At the end of the trek, we will head off to Lake Bunyoni.

## DAY 12: LAKE BUNYONYI

After breakfast you will take tour of Lake Bunyonyi. The word “Bunyonyi”, in the local language means, ‘the place of very many little birds’. Lake Bunyonyi is the second deepest lake in Africa, Lake Tanganyika being the deepest. The lake is a flooded valley system, extending Northwards from Rwanda over a distance of 25km long and 7km wide. It is thought to have formed about 8000 years ago as a result of a lava flow from one of the Virunga Mountains. The lake has a total surface area of 60sq km and

is surrounded with 20 small islands encircled by steep terraced hills. Its high-altitude location ensures a moderate climate, becoming chilly at night and relatively low incidence of malaria due to absence of mosquitoes. Bilharzia is absent from the lake as are crocodiles and hippos making it very safe to swim. This afternoon is at leisure and you can choose to take a kayak out on the lake

## WHAT OUR CLIENTS HAVE SAID

“I was lucky enough to go on a pioneer expedition to Uganda. From the booking to the trip, it was an unrivalled experience, incredibly professional and accommodating from the staff to the guides in Uganda. Nothing was too much trouble. Can't recommend them enough - will be using again and again and again.”

P. Chinery

“All-in-all a great experience and I wouldn't hesitate to come back to Pioneer again. We leave the week feeling we know Uganda a little, and keen to return. It's a wonderful thing to see - the gorillas are a unique community to share a little time with and Uganda is a very welcoming, friendly place to travel in”

## WHEN TO GO

Our group departures take place during May and October in the shoulder months of the tourism season when there are a lot less tourists and you almost get the national parks to yourself. Though these are technically the rainy seasons, Uganda gets very little rain and these months will provide you with a very precious and private experience.

- The equator goes straight through Uganda, giving it a warm, hot climate throughout the year. Uganda is sunny most of the year and has an average temperature of 26°C.
- The rainy seasons are split into the long rains from September to November, and the short rains from April to May. The short rains create incredible thunderstorms that are not found anywhere else.

## ADDITIONAL INFORMATION

ACTIVITY DURATION	2 – 5 hours per day
SEASON	Trip open between January and December
BEST TIME TO GO	We prefer to travel during the low season (April, May, October and November), when you can expect some rain but also lots of sun. The advantages are you will hardly see any other tourists on the game drives and the permits cost less.
