DAY 1: BUENOS AIRES

Buenos Aires, capital city of Argentina, with an approximate 200-km²-surface and over 3' million inhabitants, is among the largest cities in the World. This great metropolis stands out as the most elegant and European city in South America, combining antique buildings and modern constructions, exclusive shops, a unique nightlife and a wide range of cultural events all the year round. But Buenos Aires is not only that, it also offers interesting places where to enjoy yourself, such as La Boca, Palermo, Recoleta and Puerto Madero, among others. Tango can be felt in its traditional form as well as among the youngsters, who keep it alive by dancing its music in special places and listening to its lyrics sung by Carlos Gardel, the most popular tango singer. Magnificent shows with outstanding dancers and a live orchestra bring the tango passion to citizens of the world. Within a few kilometers from the city historic ranchos and small towns warmly welcome visitors with their charming and well-kept "gaucho" traditions.

The impressive words, showing the most authentic poetry of the city, are interpreted by the most outstanding singers. The show features many professional artists: first rate musicians, dancers and singers join to offer an unforgettable show.

DAY 3: BUENOS AIRES – PUERTO IGUAZU – FOZ IGUAZU

Transfer (private) from your ACCOMMODATION to AIRPORT (AEROPARQUE)

Iguazú National Park is located in the northwest of the province of Misiones, at 11 miles from Puerto Iguazú. Its preserved ecosystem belongs to the Paraná Jungle eco region that covers almost all the provincial territory. The natural treasure being hosted are the Iguazú Waterfalls: 275 waterfalls that reach an altitude of almost 260 feet. They were declared one of the New Seven Wonders of Nature in the World and, also, Mankind Natural Heritage. The visit to Iguazú National Park requires, at least, a complete day. Among the recreational proposals, it is worth mentioning: the Yvirá Retá Interpretation Centre, the Lower Walk (4,600 ft of walkways with stairs), the Upper Walk (4,200 ft of walkways without stairs), the crossing to San Martín Island and Macuco and Yacaratiá Pathways. There are alternative tours to discover the Park and get close to the Waterfalls by means of full of adrenaline activities. One of the newest proposals consists in enjoying the Waterfalls under the moonlight, during full moon clear nights. Visitors only need to go to the Park at sunset, take the little train that crosses the jungle and get into the dark. The silence is only interrupted by the sounds of night animals: a new world awakes at the depth of the jungle.

FOZ IGUAZU

The gigantic power of its massive water falls constantly roaring in a huge moistening cloud and painting the horizon with mellow rainbows, is one of the most magnificent natural spectacle on earth, which makes us realize how tiny we are in front of its force. For those seeking for adventure, a concrete platform allows breathtaking views from inside the falls. Among the various local tours, the Macuco Safari and a visit to the Bird's Park are strongly recommended. The Brazilian side of the Falls: guests may get to the marvelous Brazilian falls by walking through the wooden footbridges elevated over the river. Take photographs of the breathtaking panoramic views from the observation deck. A 40 minutes walk to admire the series of astonishing cascades up to the foot of "Floriano Fall". At the end of the path, an elevator brings visitors up.

ARGENTINA FALLS

Visit to Argentinean side of the Iguazú Falls, located within Iguazú National Park. With 67.000 hs, they are made up of 275 falls thundering down from a 70-meter average height. In this section of the rainforest, we can find a huge variety of ferns, orchids, begonias, birds and butterflies. We are on our way to Estación Central, where we will take a train to Estación Cataratas and/or Estación Garganta del Diablo. From this site, we can choose:

- Upper Circuit: 800 mts trail raised above the ground surface, so as not, to block or scare away local fauna as they go by. Highlights: Dos Hermanas, Bosetti, Bernabé Méndez, and M'Bigua waterfalls. Time required for this ride: 1 h. Difficulty range: low, no stairs
- Lower Circuit: 1.600 mts trail walk above the ground surface. Highlights: Dos Hermanas, Alvar Nuñez, San Martín, Bosetti and Peñon of Bella Vista waterfalls (from Peñon we get a view of Garganta del Diablo -Devil's Throat- and Cañon del Rio Iguazú inferior). Time required for this ride: 2 hs. Difficulty range: moderate, with stairs.
- Garganta del Diablo: departing from Estación Cataratas, the train takes us to Estación Garganta. The walk along the footbridges demands 1200 mts to delight us with the spectacular balcony of the most important waterfall of the National Park: Garganta del Diablo. Time required for this ride: 2 hs. Difficulty range: low, no stairs.

GREAT ADVENTURE (shared)

The Great Adventure offers an exciting experience within the Iguazú National Park and in Lower Iguazú River. It is divided into 2 parts: firstly, the sailing on the semi-rigid boats to reach San Martin, Bosetty, Tres Mosqueteros and Cañon de Garganta del Diablo falls and down the river rapids up to Puerto Macuco (3 kms from the Waterfalls);

We immediately get into the buses that tour along within the park and take us to the 1200 trail over the Iguazú River.

DAY 5: PUERTO IGUAZU - SALTA

SALTA

Salta is a beautiful active city, of a well preserved colonial style, hosting folk parties, the High Mountain Museum (where tourists are told about the famous expedition that found the mummified Inca children at Llulliallaco volcano) and the new gastronomic circuits for those loving the Creole and Andean cuisine. Visitors should not miss either the culture of the Salta's Gaucho, its estancias (cattle farms), its extremely beautiful national parks or the Calchaquíes Valleys (Cachi, Molinos, Seclantás or Cafayate, the latter being the local reference for the Wine Route) framed by gorges of mysterious shapes and colors perpetrated in the infinite. This region is acknowledged by the defined characteristics of their highland wines, born among the highest vineyards in the world (1.700 to 3.000 meters above sea level). Wineries, Andean gastronomy, boutique lodging and wine therapy are good reasons for not missing a trip to Salta.

DAY 6: SALTA - CAFAYATE

CALCHAQUI VALLEYS (private)

Arrival to Cachi at lunch time. The trip continues down Route 40 to admire mountainous landscapes with towns of great enchantment. Bordering the Calchaquí River, we can observe historical towns such as Seclantas, Molinos, Angastaco, San Carlos and Animana. By the end of the afternoon we arrive to Cafayate. Overnight.

Day 2: we visit some wineries; after lunch we return to Salta through Quebrada de las Conchas (Shells' ravine) visiting the peculiar rock formations caused by rain and wind, such as The Amphitheatre or The Devil's Throat. We arrive to Salta after crossing the Lerma Valley.

Cafayate –at the heart of Salta's Calchaquí Valleys- is the land of Altitude Wines. Here, grapes mature slowly and wisely, under the attentive supervision of the winemakers, necessary condition for the production of high quality wines. Around this activity, life goes on quietly and favoring the encounter of locals with tourists. In front of the central square, craftsmen offer their pottery and silver works, knitted fabrics and the typical ponchos. Guitars are the stars at festivals – Cafayate's Serenade is very beautiful in summer- while cooks prepare typical dishes (nobody should leave without having tasted empanadas). In the suburbs, the hills offer panoramic views of the valley, the rivers hide surprising cascades and time continues eroding the rocks. Cafayate is accessible, from Salta, by National Route 68

Having set sail from Punta Bandera harbor at 9 AM, we will glide over the waters of Lake Argentino's Northern Arm to reach the furthest possible point of navigation in the Upsala Channel, where we can enjoy an incredible panoramic view of the Upsala Glacier's immense front. Then, having disembarked at the shores close to Estancia Cristina, the Discovery group are welcomed by our specialized driver guides who will help them into their 4x4 vehicles, ready to head off into the wilderness. Our sturdy 4WDs will then venture up into the Feruglio Mountains, a 9.5km ride which offers great views of our surroundings and takes us ultimately to an elevated area where the cars will be parked. Once there, we'll begin a 20-minute trek over terrain characterized by glacial erosion, until reaching the Upsala Glacier Lookout; an exclusive vantage point for visitors to appreciate this immense glacier that can only be accessed from Estancia Cristina. There will be plenty of time here to enjoy views of Lake Guillermo and the eastern side of the Upsala Glacier, as well as the Southern Patagonian Ice Field. Afterwards, the groups will head back to the lodge in our 4x4 vehicles, for a well-deserved rest and break for lunch (approx. 1 hour). Later on, having returned from the trek, we will visit the Costumbrista Museum, housed in the estancia's old shearing shed where guests can learn all about the history of the Masters family: their lives, adventures and how they became pioneers in Patagonia. Finally, a guided tour will take visitors around Estancia Cristina's estate – up to the Caterina River, the waterwheel, chapel and the rest of the lodge.

NOTE: if the maximum number of passengers is exceeded, visitors will be divided in turns by the tour coordinator of the Estancia.
