Once in a life time Wildlife experience

We’ve combined activities galore with the spectacularly diverse natural landscape of Costa Rica. You’ll take in the canals and Caribbean tropical rainforests of Tortuguero. Then choose- a hired car or sit back and be driven past epic, volcanic backdrops, through mist shrouded cloud forests where wildlife is abundant. An optional beach extension takes you to the beautiful and rugged Nicoya Peninsula or family friendly Manuel Antonio.

# Costa Rica an overview

Eco-diversity like no other - Costa Rica encases 500,000 different species which account for roughly 4% of the world's plant, insect and wildlife species. Witness Sloths, Monkeys, Frogs, Snakes, Turtles, Iguanas, Humming Birds and so much more. Wander through tranquil bird-packed cloud forests and rich rainforests brimming with a plethora of spectacular wildlife. As well as its head-turning abundance of wildlife, this Central American paradise is famed for its never-ending activities, making it an adventure-seeker's dream; the vast array of activities widely on offer include Zip-lining, White-Water Rafting and Trekking. The incredibly beautiful east and west shores that run down the sides of Costa Rica display gorgeous paradise beaches lined with jungle, such as the secluded sandy stretches of the laid-back Caribbean coastline and the 'sun and surf' pacific stretches containing some great marine life. Become acquainted with the warm friendly locals, offering huge smiles, an easy-going manner and 'Pura Vida's. Despite receiving a heavy influx of tourists in recent years, there are still some extraordinary hidden gems and quiet spots to be found which will allow the more adventurous of tourists to experience nature, activities and culture that the typical tourists let pass them by.

## DAY 6 : Discover the Natural Beauty of Rio Celeste

Today we can hike alongside the surreal turquoise waters of the Rio Celeste.

The Río Celeste gets its name from the unusual color of the water. The deep turquoise hue is a result of the Buenavista River and its silicon particles meeting the more acidic Sour Creek, the combination causes the suspended particles in the Río Celeste to scatter light, creating the turquoise colour. In the afternoon we continue to La Fortuna and Arenal volcano.

### Rio Celeste Hike:

Starting with a moderate hike, you'll be rewarded with views of the Rio Celeste waterfall and its distinct blue coloring. Follow the stairs down to the water's edge and you can witness the stunning 60-foot waterfall as it empties into a pool of sky blue water. Continuing down the well-maintained path and venturing across hanging bridges that span the river, you'll find its origins in an azure lagoon further up the trail. The Rio Celeste in Costa Rica is surrounded by the emerald green forests of the National Park, creating an experience unlike any other. You'll even get to witness the two rivers that mix to create the Rio Celeste and where they combine is where the vibrant blue color begins. The Rio Celeste's blue water comes from the minerals in the volcanic rock, but seeing them in person will feel like you are experiencing magic in nature.

Monteverde cloud forest:

Cloud forests are as the name suggests; hazy mist or low lying clouds that cover the upper canopy of the forest. These rare forests cover just 1% of global woodlands and can only be found in tropical and subtropical mountainous areas. The thick layer of clouds makes it more difficult for the sun to break through, providing a slower rate of evaporation, which gives the plants plenty of life-giving moisture, which in turn promotes a huge biodiversity. Monteverde cloud forests is host to 100 species of mammals, 400 species of birds, and 1,200 species of amphibians and reptiles. Additionally, it is also one of the few remaining homes to all 6 species of the cat family; Jaguars, Ocelots, Pumas, Oncillas, Margays and Jagurundis.
